

APR 11 2016

Indian Health Service
Rockville MD 20852

Dear Tribal Leader:

As announced in my letter dated April 1 and effective today, the Indian Health Service (IHS) opens a Tribal Consultation for a 60-day period to consult with American Indian and Alaska Native Tribes and Tribal Organizations on the IHS Contract Support Costs (CSC) Policy. The purpose of the IHS CSC Policy is to provide uniform and equitable guidance on the preparation and negotiation of requests for CSC funds for both new and ongoing awards authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), 25 U.S.C. § 450 et seq. I have enclosed a copy of the revised policy, including all of the associated exhibits.

Our goal is to finalize and implement the revised CSC policy this year. For easy comparison, you may access the current CSC Policy, located in the Indian Health Manual at Part 6, Chapter 3, online at: https://www.ihs.gov/ihm/index.cfm?module=dsp_ihm_pc_p6c3.

The IHS CSC Workgroup recommended improvements and clarifications that are incorporated in the revised policy for your review. I point your attention to the following significant changes:

- Introduction – includes Guiding Principles; expands on the definitions
- Process – section was renamed “Determining CSC Amounts”
 - Assumes full funding instead of addressing how to allocate a limited appropriation.
 - 6-3.2.E.1.b: Determination of Final Amount for Indirect CSC Need and Funding
 - Use the most current and up-to-date information to determine final CSC need at the end of the contract funding period.
 - For example, use indirect cost rate not older than two (2) years (note: IHS will use rates up to three (3) years old for FY 2014 – FY 2017; these years are considered transitional years).
 - 6-3.2.E.3: Similar to the 80/20 split that is used to determine indirect costs funded in Tribal Shares and avoid duplication, IHS provides an option to negotiate indirect costs funded in the Service Unit shares by using a 97/3 split. Tribes still have the option to use the current negotiation of indirect CSC.
- Throughout the IHS CSC Policy, the IHS and Tribal workgroup members used footnotes to outline differences in interpretation and application of the ISDEAA, including which costs are eligible for CSC under the statute.
- The Exhibits have been updated to support the changes in the Policy.

I look forward to hearing your input on the draft revised CSC policy. Please submit your input no later than 60 days from the date of this letter. You can submit your recommendations by e-mail to consultation@ihs.gov or in writing to the address below.

In addition, IHS will conduct three in-person sessions on the draft revised IHS CSC Policy scheduled over the next two months during the following events:

2016 U.S. Department of Health & Human Services Region IX Tribal Consultation

April 15 from 3:00 p.m. – 3:45 p.m.
