## Funding Opportunities

### FY18 FINI Request for Applications

The Food Insecurity Nutrition Incentive (FINI) Program supports projects to increase the purchase of fruits and vegetables among low-income consumers participating in the Supplemental Nutrition Assistance Program (SNAP) by providing incentives at the point of purchase. The program will test strategies that could contribute to our understanding of how best to increase the purchase of fruits and vegetables by Supplemental Nutrition Assistance Program (SNAP) participants that would inform future efforts, and develop effective and efficient benefit redemption technologies. Access grant [here](#).

Deadline: **December 13, 2017**

### SMSC and AHA Grant Program

The Shakopee Mdewakanton Sioux Community (SMSC) and the American Heart Association (AHA) have announced the creation of a \$200,000 grant program to support innovative nutrition-based, health-focused advocacy efforts in Native American communities. The American Indian Cancer Foundation (AICAF) will serve as the intermediary partner for the new Fertile Ground Grant Program, administering the program and providing technical assistance to grantees. ## Announcements

### Native Strong: Healthy Kids, Healthy Futures Program

The Social Determinants of Health of Type 2 Diabetes and Obesity, published for the Notah Begay III Foundation's Native Strong: Healthy Kids, Healthy Futures Program, examines the root causes of obesity and type 2 diabetes in Native American children. In addition to reflecting on common factors such as the lack of access high quality food or safe places to exercise, the research framework also recognizes the effect of certain determinants on Native American populations, such as historical trauma and unstable living conditions. The report also explores gaps that generally occur in data collection. Read more [here](#).
