

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

To: Idaho Delegates, Oregon Delegates, Washington Delegates, Tribal Chairs and Tribal Health Directors

Greetings! The NPAIHB - Funding Opportunity is provided on the basis that when there is pertinent announcements we are made aware of, have received and/or researched for as part of our commitment to the health and well-being of our tribal members it is posted here for you. New posts will be available Friday/Monday (**unless there are no “New” grant announcements**). Please see the **“New” Funding Opportunity Information provided in this “color code”**.

If you have a specific targeted goal or urgent community need and find yourself not knowing where to start --“looking for a grant”, our assistance is available anytime, and we would be very excited to assist you. In addition, at the end of this announcement several funding organizations do not have deadlines and do accept proposals all year round.

Mazda Foundation Invites Applications for 2018 Giving Program

DEADLINE: May 1 - July 1, 2018

AMOUNT: Grants amounts are determined according to the nature and need of the program.

DESCRIPTION: The Mazda Foundation, the philanthropic arm of Mazda North America, supports nonprofit organizations in the areas of education, literacy, social welfare, scientific research, cross-cultural understanding, and environmental conservation.

WEBSITE/LINK: <http://www.mazdafoundation.org/grant-guidelines/>

National Health Service Corps Scholarship Program

DEADLINE: May 10, 2018

AMOUNT: The scholarship pays for tuition, education-related expenses, and a monthly stipend in exchange for a minimum of 2 years of full-time service at an approved site, with a maximum of 4 years. Applicants who choose to work half-time must agree to a service commitment of a minimum of 4 years and a maximum of 8 years.

DESCRIPTION: The National Health Service Corps Scholarship Program awards scholarships to students who are pursuing one of the following degrees with a primary care specialty:

Medicine (MD or DO)

Dentistry (DDS or DMD)

Nurse Practitioner

Certified Nurse Midwife

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

Physician Assistant

Scholarship recipients must commit to providing primary care health services at an approved site in a high-need urban, rural, or frontier community upon completion of their degrees. Recipients are expected to provide one year of full-time equivalent service for each year of the scholarship.

No Barriers Warriors Invites Applications From Veterans With Disabilities

DEADLINE: May 20, 2018

AMOUNT: (See Website.)

DESCRIPTION: No Barriers Warriors, in partnership with Wells Fargo & Company, is seeking applications from veterans with disabilities for the 2018 #WarriorStrong: The Journey Continues expedition.

The expedition is designed to provide rigorous mental and physical challenges that help veterans reflect on their past, recognize where they are now, and work toward goals for their future so they may successfully transition to civilian life. This year's expedition will focus on the attributes that veterans bring to communities and the workforce, emphasizing what they are capable of when given an opportunity.

The 2018 #WarriorStrong expedition will comprise a team of twelve veterans, including four alumni from previous No Barriers Warriors expeditions who serve as mentors. The 2018 team will participate in online training prior to the expedition to learn about the No Barriers Life, develop a team dynamic, and physically prepare for the expedition.

The team will journey to Mount Whitney in the Sierra Nevada, the highest summit in the contiguous United States, with the goal of summiting the mountain on September 11. After the expedition, the team will gather for a post-expedition developmental session at the 2018 No Barriers Summit in New York City. At the summit, the group will focus on progress toward the goals they set during the expedition and their plan to make a meaningful contribution to their communities when they return home.

Assertive Community Treatment Grants

DEADLINE: Tuesday, May 29, 2018

AMOUNT: Up to \$678,000 per year. Up to 5 years.

DESCRIPTION: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS) is accepting applications for fiscal year (FY) 2018 Grants to Establish and Expand Assertive Community Treatment (Short Title: ACT). The purpose of this program is to establish or expand and maintain ACT programs for individuals with a serious mental illness (SMI). SAMHSA expects this program will improve behavioral health outcomes for individuals by reducing rates of hospitalization, mortality, substance use, homelessness, and involvement with the criminal justice system.

ACT is considered to be one of the most effective evidence-based programs designed to support community living for individuals with the most severe functional impairments associated with SMI. Such individuals tend to need services from multiple providers (e.g., physicians, social workers) and multiple systems (e.g., social services, housing services, health care).

Based on the ACT model, a multi-disciplinary team is available around the clock to deliver a wide range of services in a person's home or other community settings. ACT was developed to deliver comprehensive and effective services to those who live with the most serious psychiatric symptoms, the most significant social functioning challenges, and whose needs have not been well met by traditional approaches. ACT is a service delivery model, not a case management program. The ACT team model is composed of 10-12 multi-disciplinary behavioral health care staff who work together to deliver a mix of individualized, recovery-oriented services to persons living with SMI to help them successfully integrate into the community. Team members themselves provide the comprehensive array of services directly rather than through referrals. Caseloads are approximately one staff for every 10 individuals served. Services are provided 24 hours - 7 days a week, as long as needed and wherever they are needed. ACT teams often find they can anticipate and avoid crises.

OJJDP FY 18 Law Enforcement-Youth Field Initiated Research and Evaluation Program - Department of Justice/Office of Juvenile Justice Delinquency Prevention

DEADLINE: May 29, 2018

AMOUNT: \$1,000,000

DESCRIPTION: This solicitation will support field-initiated, methodologically rigorous research and/or evaluations focused on interactions between law enforcement and youth, with practical implications for the identification and development of programs and policies that ensure officer, youth, and community safety. This solicitation encourages researchers to propose studies that contribute to the development of scientific evidence about factors that facilitate or inhibit positive police-youth interactions, as well as evaluations of the implementation and effectiveness of trainings, programs, practices, or policies designed to facilitate productive law enforcement and youth engagement.

OVC FY 2018 American Indian/Alaska Native Training and Technical Assistance Program

DEADLINE: May 31, 2018

AMOUNT: \$1,500,000

DESCRIPTION: The OVC American Indian/Alaska Native Training and Technical Assistance (AI/AN TTA) Program supports OVC's Tribal grantees. The purpose of this program is to support tribal communities and enhance all OVC tribal awardees capacity to coordinate the provision of a comprehensive array of culturally appropriate services to victims of crime, their families, and the community. In FY 2018, this program will be focused on both training and technical assistance to provide a more individual, comprehensive, and targeted approach to assisting AI/AN grantees funded through OVC's tribal programs. Technical Assistance: Some examples of Technical Assistance include: initial assessments of the OVC tribal grantees technical assistance needs; development of strategies and tools to assist grantees to adopt promising practices and successful partnerships; providing support in the development of needs assessments, strategic plans, and logic models; designing and maintaining a data collection system to meet reporting requirements in a timely and accurate manner; identifying and maintaining culturally appropriate model protocols, tribal codes, and victims' rights codes; and developing assessment tools to measure the quality and effectiveness of delivered victim services. Training: The Technical Assistance Provider will develop and deliver culturally appropriate training based on the tribe's individual needs, as well as assist OVC in providing training and resources that are targeted for all OVC tribal grantees. Additional tasks include, but are not limited to, identifying and developing innovative training materials and strategies that can be adapted for OVC tribal grantees; conducting advisory board and planning meetings to further program development; identifying and maintaining a cadre of experts who can conduct training to OVC tribal grantees on services to crime victims, their families, and the community; and coordinating with OVC to identify relevant federally-funded training resources and incorporate these resources into training efforts.

APRIL 2018

Evidence for Action: Making Health a Shared Value – RWJ

DEADLINE: June 01, 2018, 3:00 p.m. ET

AMOUNT: RWJ will award up to \$2.5 million through this CFP, with the majority of funding dedicated to research that is either specific to disadvantaged children and families, or will benefit these groups.

There is not an explicit budget per grant. Applicants should request the amount of funding needed to complete the proposed research project, including both direct and indirect costs for the entire duration of the study.

The total number of grants to be awarded will be determined based on the number, size, and scope of the studies proposed, and we expect to award grants in a range of sizes and durations.

Grant periods are flexible, with total durations of up to 48 months, and preference for projects that produce findings in the near term.

DESCRIPTION: The purpose of this call for proposals (CFP) is to improve our understanding of the Action Area 1 drivers* and outcomes related to health, well-being and equity, particularly with respect to disadvantaged children and families. A current lack of empirical evidence limits our ability to identify strategies with the potential to “drive” this Action Area forward. In addition, although these drivers are strongly correlated with individual health outcomes, we lack compelling evidence of the causal directions and the magnitudes of effects on health, well-being, and equity.

We seek evidence on the extent to which Action Area 1 drivers—mindsets and expectations, sense of community, and civic engagement—can be changed through intervention at the individual or population levels to result in better health, well-being and equity outcomes.

An ideal study to provide such evidence would experimentally manipulate a driver, measure changes in that driver, and then measure resulting health impacts. However, we recognize that a variety of constraints could preclude such a design within the parameters of this funding opportunity. Thus, we have established two key aims for funding under this CFP:

Aim 1: To test the effects of specific interventions on the Action Area 1 drivers, in order to determine the extent to which they can be changed; and

Aim 2: To establish evidence of causal relationships between Action Area 1 drivers and health outcomes.

While projects that can achieve both aims are preferred, we also anticipate funding research that addresses either of the aims independently. In addition, we hope to support research that can assess the potential of drivers to “move the needle” on health, well-being, and equity outcomes for children and families by examining Action Area 1 drivers within the context of underlying and structural determinants of health.

Researchers are not limited to the specific terminology used here to define the drivers. We will consider projects that apply broad interpretations of what drivers could embody, and that propose novel ways to conceptualize or frame drivers within the Action Framework. Moreover, achieving a Culture of Health involves multiple factors working interactively in complex systems. It is therefore appropriate to think about Action Area 1 drivers not in

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

isolation, but rather as part of these dynamic systems, in which synergy may exist among multiple drivers.

WEBSITE/LINK: https://www.rwjf.org/en/library/funding-opportunities/2018/evidence-for-action-making-health-a-shared-value.html?rid=0034400001rm5idAAA&et_cid=1212282

Drug-Free Communities Mentoring Program

DEADLINE: Monday, June 4, 2018

AMOUNT: Up to \$75,000 per year. Up to 2 years.

DESCRIPTION: The Drug-Free Communities (DFC) Support Program was created by the Drug-Free Communities (DFC) Act of 1997 (Public Law 105-20). The DFC Mentoring (DFC-M) Program was established as a component of the DFC Support Program when the program was reauthorized in 2001 (Public Law 107-82, 115 Stat. 814). The DFC Mentoring Program was also included in the Office of National Drug Control Policy Reauthorization Act of 2006 (Public Law 109-469).

The purpose of the DFC-M Program is to assist newly forming coalitions in becoming eligible to apply for DFC funding on their own.

It is the intent of the DFC-M Program that, at the end of the Mentoring grant, each Mentee coalition will meet all of the statutory eligibility requirements of the DFC Support Program and be fully prepared to compete for a DFC grant on their own. Recipients will be expected to achieve this by meeting the following goals:

Strengthen the Mentee coalition's organizational structure.

Increase the Mentee coalition's leadership and community readiness to address youth substance use problems in the Mentee community.

Assist the Mentee coalition in working through a strategic planning process that will result in a comprehensive Action Plan.

*For the purposes of this Funding Opportunity Announcement (FOA), "youth" is defined as individuals 18 years of age and younger.

The DFC-M Program is a collaborative effort directed by the Office of National Drug Control Policy (ONDCP) in collaboration with the Department of Health and Human Services (HHS), Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP). This announcement addresses Healthy People 2020 Substance Abuse Topic Area HP 2020-SA.

Eligibility

Eligible applicants must have a coalition that has been in existence for at least five years (not to be interpreted as having been a DFC recipient for five years); have an active DFC grant at the time of the award (not including no-cost extensions); and be in good standing (not on restrictive status).

Distance Learning and Telemedicine Grant Program

DEADLINE: Jun 04, 2018

AMOUNT: \$500,000

DESCRIPTION: DLT grants are designed to provide access to education, training, and health care resources for rural Americans. The DLT Program is authorized by 7 U.S.C. 950aaa and provides financial assistance to encourage and improve telemedicine and distance learning services in rural areas through the use of telecommunications, computer networks, and related advanced technologies that students, teachers, medical professionals, and rural residents can use. The regulation for the DLT Program can be found at 7 CFR part 1734 Subpart B. The grants, which are awarded through a competitive process, may be used to fund telecommunications-enabled information, audio and video equipment, transmission facilities, and related advanced technologies which extend educational and medical applications into rural areas. Grants are intended to benefit end users in rural areas, who are often not in the same location as the source of the educational or health care service.

Improving Access to Overdose Treatment - Substance Abuse and Mental Health Services Administration, U.S. Department of Health and Human Services

DEADLINE: Jun 4, 2018

AMOUNT: \$200,000 per year. Up to 5 years.

DESCRIPTION: The Improving Access to Overdose Treatment program provides grants to expand access to Food and Drug Administration approved drugs and/or devices for emergency treatment of known or suspected opioid overdose through planning, training, and the development of protocols.

Required activities include:

Establish a program for emergency treatment of known or suspected opioid overdose

Train and provide resources for healthcare providers and pharmacists on the prescribing of drugs or devices for emergency treatment of known or suspected opioid overdose

Establish protocols to connect patients who have experienced a drug overdose with appropriate treatment, including medication-assisted treatment, and appropriate counseling and behavioral therapies

Develop a plan for sustaining the program after Federal support for the program has ended

Use SAMHSA's Opioid Overdose Prevention Toolkit as a guide to develop and implement a comprehensive prevention program to reduce the number of prescription drug/opioid overdose-related deaths and adverse events among cases of known or suspected opioid overdose

Address overdose by patients on prescribed opioids

Up to 20% of the grant may be used for:

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

Purchase of approved drugs or devices for distribution under the program

Offset the co-payments and other cost sharing associated with approved drugs or devices for emergency treatment of known or suspected opioid overdose

Mental Health Awareness Training Grants - Substance Abuse and Mental Health Services Administration, U.S. Department of Health and Human Services

DEADLINE: Jun 8, 2018

AMOUNT: \$125,000 per year. Up to 3 years.

DESCRIPTION: The purpose of the Mental Health Awareness Training Grant program is to:

Train individuals, such as school personnel, emergency first responders, law enforcement, veterans, armed services members, and their families to recognize the signs and symptoms of mental disorders, particularly serious mental illness (SMI) and/or serious emotional disturbance (SED)

Establish linkages with school and/or community-based mental health agencies to refer individuals with the signs or symptoms of mental illness to appropriate services

Train emergency services personnel, veterans, law enforcement, fire department personnel, and others to identify persons with a mental disorder and employ crisis de-escalation techniques

Educate individuals about resources that are available in the community for individuals with a mental disorder

Additional expectations and required activities are listed in the application instructions.

SAMHSA intends to make an equitable distribution of awards in terms of geography (including urban, rural, and remote settings) and balance among populations of focus and program size.

Community Programs for Outreach and Intervention with Youth and Young Adults at Clinical High Risk for Psychosis

DEADLINE: Monday, June 11, 2018

AMOUNT: Proposed budgets cannot exceed \$400,000 in total costs (direct and indirect) in any year of the proposed project. Funding estimates for this announcement are based on the Consolidated Appropriations Act, 2018. Annual continuation awards will depend on the availability of funds, recipient progress in meeting project goals and objectives, timely submission of required data and reports, and compliance with all terms and conditions of award.

DESCRIPTION: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS), is accepting applications for fiscal year (FY) 2018 Community Programs for Outreach and Intervention with Youth and Young Adults[1] at Clinical High Risk for Psychosis[2] Grant Program (Short Title: CHR-P). The purpose of this program is to identify youth and young adults, not more than 25 years old, at clinical high risk for psychosis and provide evidence-based interventions to prevent the onset of psychosis or lessen the severity of psychotic disorder. It is expected that this program will: (1) improve symptomatic and behavioral functioning; (2) enable youth and young adults to resume age-appropriate social, academic, and/or vocational activities; (3) delay or prevent the onset of psychosis; and (4) minimize the duration of untreated psychosis for those who develop psychotic symptoms. SAMHSA and the National Institute of Mental Health (NIMH) encourage partnerships between service grant applicants and mental health researchers to evaluate the effectiveness of stepped-care[3] intervention strategies for youth and young adults at clinical high risk for psychosis. Research studies conducted within the context of the CHR-P program should be proposed through separate NIH research project grant applications. NIMH plans to issue a Notice directing research grant applicants to appropriate funding mechanisms.

Respite and Relatives as Parents Programs - Brookdale Foundation

DEADLINE: Group Respite Program - Applications must be received no later than June 27.
Relatives as Parents Program - Applications must be received no later than June 13.

AMOUNT: Grants of up to \$15,000 will be awarded to up to fifteen Group Respite and Early Memory Loss programs to develop a new dementia-specific social model program. Grant funds may not be used to support or expand the hours, days, or service capacity of existing social, health, or medical model programs or to serve mixed populations.

DESCRIPTION: The Brookdale Foundation is accepting applications for its Group Respite and Relative as Parents programs.

Since 1989, the Brookdale National Group Respite Program has awarded seed grants to organizations to develop and implement social model group respite programs. These day programs have served thousands of elders with Alzheimer's disease or related dementia and their family caregivers. In addition to group respite, the development of programs for people with early memory loss is also supported through this initiative.

1) Group Respite Program: The goals of the program are to offer opportunities for persons with Alzheimer's disease or a related dementia to engage in a program of meaningful social and recreational activity in a secure and supportive setting in order to maximize their cognitive and social abilities, as well as to provide relief and support to family members and other primary caregivers.

In addition to providing respite care and enjoyable group activities that build on the strengths and abilities of participants, the programs offer family caregivers access to services such as counseling, support groups, information and referral, training, and education. With a nationwide network of programs providing regular respite services, the program demonstrates that a cost-effective social model of adult day services can successfully address the special needs of Alzheimer's families.

2) Relatives as Parents Program: This program aims to develop or expand services for grandparents or other relatives who have taken on the responsibility of surrogate parenting when the biological parents are unable to do so. Up to fifteen programs will be selected to receive seed grants of up to \$15,000.

Addressing the Challenges of the Opioid Epidemic in Minority Health and Health Disparities Research in the U.S. (R01 Clinical Trial Optional) - Department of Health and Human Services, National Institutes of Health

DEADLINE: June 16, 2018

AMOUNT: \$200,000

DESCRIPTION: The purpose of this Funding Opportunity Announcement (FOA) is to encourage developmental and exploratory research focused on determining the mechanisms for the variation in the prevalence of Opioid Use Disorder (OUD), and understanding and reducing disparities in opioid care in minority health and health disparity populations in the U.S. This initiative will also seek to identify multi-level intervention strategies at the institutional and systems level for addressing OUD in these populations.

Office of Tribal Self-Governance Negotiation Cooperative Agreement - Department of Health and Human Services, Indian Health Service

DEADLINE: Jun 18, 2018

AMOUNT: \$48,000

DESCRIPTION: The purpose of this Negotiation Cooperative Agreement is to provide Tribes with resources to help defray the costs associated with preparing for and engaging in Tribal Self-Governance Program (TSGP) negotiations. TSGP negotiations are a dynamic, evolving, and tribally driven process that requires careful planning, preparation and sharing of precise, up-to-date information by both Tribal and Federal parties. Because each Tribal situation is unique, a Tribe's successful transition into the TSGP, or expansion of their current program, requires focused discussions between the Federal and Tribal negotiation teams about the Tribe's specific health care concerns and plans. One of the hallmarks of the TSGP is the collaborative nature of the negotiations process, which is designed to: 1) enable a Tribe to set its own priorities when assuming responsibility for IHS Programs, Services, Functions and Activities (PSFAs), 2) observe and respect the Government-to-Government relationship between the U.S. and each Tribe, and 3) involve the active participation of both Tribal and IHS representatives, including the Office of Tribal Self-Governance (OTSG). Negotiations are a method of determining and agreeing upon the terms and provisions of a Tribe's Compact and Funding Agreement (FA), the implementation documents required for the Tribe to enter into the TSGP. The Compact sets forth the general terms of the Government-to-Government relationship between the Tribe and the Secretary of the U.S. Department of Health and Human Services (HHS). The FA: 1) describes the length of the agreement (whether it will be annual or multi-year), 2) identifies the PSFAs, or portions thereof, the Tribe will assume, 3) specifies the amount of funding associated with the Tribal assumption, and 4) includes terms required by Federal statute and other terms agreed to by the parties. Both documents are required to participate in the TSGP and they are mutually negotiated agreements that become legally binding and mutually enforceable after both parties sign the documents. Either document can be renegotiated at the request of the Tribe. The negotiations process has four major stages, including: 1) planning, 2) pre-negotiations, 3) negotiations, and 4) post-negotiations. Title V of the Indian Self-Determination and Education Assistance Act (ISDEAA) requires that a Tribe or Tribal organization complete a planning phase to the satisfaction of the Tribe. The planning phase must include legal and budgetary research

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

and internal Tribal Government planning and organizational preparation relating to the administration of health care programs. See 25 U.S.C. Section 5383(d). The planning phase is critical to negotiations and helps Tribes make informed decisions about which PSFAs to assume and what organizational changes or modifications are necessary to support those PSFAs. A thorough planning phase improves timeliness and efficient negotiations and ensures that the Tribe is fully prepared to assume the transfer of IHS PSFAs to the Tribal health program. During pre-negotiations, the Tribal and Federal negotiation teams review and discuss issues identified during the planning phase. Pre-negotiations provide an opportunity for the Tribe and the IHS to identify and discuss issues directly related to the Tribe's Compact, FA and Tribal shares. They may take the form of a formal meeting or a series of informal meetings or conference calls. In advance of final negotiations, the Tribe should work with the IHS to secure the following: 1) program titles and descriptions, 2) financial tables and information, 3) information related to the identification and justification of residuals, and 4) the basis for determining Tribal shares (distribution formula). The Tribe may also wish to discuss financial materials that show estimated funding for next year, and the increases or decreases in funding it may receive in the current year, as well as the basis for those changes. Having reviewed the draft documents and funding tables, at final negotiations both negotiation teams work together in good faith to determine and agree upon the terms and provisions of the Tribe's Compact and FA. Negotiations are not an allocation process; they provide an opportunity to mutually review and discuss budget and program issues. As issues arise, both negotiations teams work through the issues to reach agreement on the final documents. There are various entities involved throughout the negotiations process. For example, a Tribal government selects its representative(s) for negotiations and the Tribal negotiations team, which may include a Tribal leader from the governing body, a Tribal health director, technical and program staff, legal counsel, and other consultants. Regardless of the composition of the Tribal team, Tribal representatives must have decision making authority from the Tribal governing body to successfully negotiate and agree to the provisions within the agreements. The Federal negotiations team is led by the ALN and may include area and headquarters staff, including staff from the OTSG, the Office of Finance and Accounting, and the Office of the General Counsel. The ALN is the only member of the Federal negotiations team with delegated authority to negotiate on behalf of the IHS Director. The ALN is the designated official that provides Tribes with Self-Governance information, assists Tribes in planning, organizes meetings between the Tribe and the IHS, and coordinates the Agency's response to Tribal questions during the negotiations process. The ALN role requires detailed knowledge of the IHS, awareness of current policy and practice, and understanding of the rights and authorities available to a Tribe under Title V of the ISDEAA. In post-negotiations, after the Compact, FA and all negotiations are complete, the documents are signed by the authorizing Tribal official and submitted to the ALN who reviews the final package to ensure each document accurately reflects what was negotiated. Once the ALN completes this review, then the final package is submitted to the OTSG to be prepared for the IHS Director's signature, provided that no outstanding issues delay or prevent signature. After the Compact and FA have been signed by both parties, they become legally binding and enforceable agreements. A signed Compact and FA are necessary for the payment process to begin. The negotiating Tribe then becomes a "Self-Governance Tribe" and a participant in the TSGP. Acquiring a Negotiation Cooperative Agreement is not a prerequisite to enter the TSGP. A Tribe may use other resources to develop and negotiate its Compact and FA. See 42 C.F.R. Section 137.26. Tribes that receive a Negotiation Cooperative Agreement are not obligated to participate in Title V and may choose to delay or decline participation or expansion in the TSGP.

Office of Tribal Self-Governance Planning Cooperative Agreement -Department of Health and Human Services, Indian Health Service

DEADLINE: Jun 18, 2018

AMOUNT: \$120,000

DESCRIPTION: The purpose of this Planning Cooperative Agreement is to provide resources to Tribes interested in entering the Tribal Self-Governance Program (TSGP) and to existing Self-Governance Tribes interested in assuming new or expanded Programs, Services, Functions, and Activities (PSFAs). Title V of the Indian Self-Determination and Education Assistance Act (ISDEAA) requires a Tribe or Tribal organization to complete a planning phase to the satisfaction of the Tribe. The planning phase must include legal and budgetary research and internal Tribal government planning and organizational preparation relating to the administration of health care programs. See 25 U.S.C. Section 5383(d). The planning phase is critical to negotiations and helps Tribes make informed decisions about which PSFAs to assume and what organizational changes or modifications are necessary to successfully support those PSFAs. A thorough planning phase improves timeliness and efficient negotiations and ensures that the Tribe is fully prepared to assume the transfer of Indian Health Service (IHS) PSFAs to the Tribal health program. A Planning Cooperative Agreement is not a prerequisite to enter the TSGP and a Tribe may use other resources to meet the planning requirement. Tribes that receive Planning Cooperative Agreements are not obligated to participate in the TSGP and may choose to delay or decline participation based on the outcome of their planning activities. This also applies to existing Self-Governance Tribes exploring the option to expand their current PSFAs or assume additional PSFAs.

PPHF2018-National Organization for Chronic Disease Prevention and Health Promotion-financed in part by 2018 Prevention and Public Health Funds - Department of Health and Human Services, Centers for Disease Control - NCCDPHP

DEADLINE: Jun 25, 2018 Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

AMOUNT: \$3,000,000

DESCRIPTION: This program is financed in part by FY18 Prevention and Public Health Funds. The purpose of this notice of funding opportunity (NOFO) is to build on the National Center for Chronic Disease Prevention and Health Promotions (NCCDPHP) efforts to strengthen the capacity and capabilities of the states; chronic disease prevention and health promotion public health workforce. This program is expected to result in adoption of evidence-based chronic disease prevention and health promotion approaches and effective use of public health tools and resources. This 5-year NOFO supports strengthening the leadership and expertise in the chronic disease prevention system domains in order to transform the practice of chronic disease prevention and health promotion in state health departments and accelerate improvements in population health. Focusing on the priorities and goals of the NCCDPHP, this program will support the development of effective state chronic disease programs through implementation of practice-based learning and leadership development strategies. Recipients will include one (1) organization that will address these strategies and activities: Strategy: Practice-based Learning Activity 1: Convene and lead peer-to-peer forums that engage in problem solving and learning about

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

effective domain and workforce development strategies. Activity 2: Assess state health department organizational capacity and develop an action plan. Activity 3: Expand use of technology by developing learning opportunities in modes most accessible to state health department staff. Strategy: Leadership and Development Activity 1: Develop an implementation plan that describes activities to build leadership skills and competencies among Chronic Disease Directors and staff. Activity 2: Expand workforce training to build identified leadership skills and competencies.

COMMUNITY

Indian Highway Safety Occupant Protection Grant

DEADLINE: May 1, 2018

AMOUNT: Funding amount is not specified.

DESCRIPTION: The Indian Highway Safety Occupant Protection Grant provides funding to federally recognized tribes for implementing traffic safety programs and projects which are designed to reduce the number of traffic crashes, deaths, injuries, and property damage.

Program areas include:

Impaired driving - Programs directed at reducing injuries and death attributed to impaired driving on reservations

Selective traffic enforcement programs to apprehend impaired drivers

Specialized law enforcement training

Public information programs on alcohol and other drug use and driving

Education programs for convicted DWI/DUI offenders

Youth alcohol education programs promoting traffic safety

DUI/Impaired driving courts and programs or projects directed toward judicial training

Innovative programs to combat impaired driving

Occupant protection - Programs directed at decreasing injuries and deaths attributed to the lack of safety belt and child restraint usage

Surveys to determine usage rates and to identify high-risk non-users

Comprehensive programs to promote correct usage of child safety seats and other occupant restraints

Transit Planning for All

DEADLINE: May 4, 2018

AMOUNT: \$35,000 for 6 months. Estimated number of awards 20.

DESCRIPTION: Transit Planning for All provides grants to organizations that are involved in the administration, delivery, or coordination of transportation, aging, and/or disability services to include seniors, individuals with disabilities, and caregivers in their planning, design, and implementation processes.

Grants will be awarded in areas that represent geographic diversity, in terms of different areas of the country, as well as a mix of urban, suburban, rural, tribal, and frontier areas.

Required project activities include:

Create an inclusive steering committee that meets at least monthly throughout the project

Use the Path of Inclusion module to assess current transportation planning practices

Consult with and engage the broader community of older adults, people with disabilities, caregivers, and other stakeholders in the project

Identify options and priorities for improving transportation services and practices to ensure sustained, active, and meaningful involvement of people with disabilities, older adults, and caregivers in the transportation planning process

Workforce Innovation and Opportunity Act (WIOA), Indian and Native American Program - Employment and Training Grants - Department of Labor, Employment and Training Administration

DEADLINE: May 18, 2018 The closing date for receipt of applications under this announcement is May 18, 2018. Applications must be received no later than 4:00:00 p.m. Eastern Time.

AMOUNT: \$62,000,000 X 176 AWARDS

DESCRIPTION: The Employment and Training Administration, U.S. Department of Labor announces the availability of approximately \$62 million for Indian and Native American (INA) Program Grants to fund approximately 176 total grants. We anticipate approximately \$49,000,000 of the \$62,000,000 will be for Comprehensive Service Program (adult) activities, and the remaining \$13,000,000 will be for Supplemental Youth Services that will be awarded to those grant recipients that serve Indian, Alaska Native, and Native Hawaiian youth living on or near Indian reservations and in Oklahoma, Alaska, and Hawaii. The funds are authorized by Section 166 of the Workforce Innovation and Opportunity Act (WIOA) and amounts will be based on a funding formula provided in the WIOA regulations at 20 CFR 684.270 and 684.440. The purpose of this program is to “support employment and training activities for Indian, Alaska Native, and Native Hawaiian individuals in order to: (A) develop more fully the academic, occupational, and literacy skills of such individuals; (B) make such individuals more competitive in the workforce and equip them with the entrepreneurial skills necessary for successful self-employment; and (C) promote the economic and social development of Indian, Alaska Native, and Native Hawaiian communities in accordance with the goals and values of such communities.” INA grant competitions are held every four years. Grantees that receive an award as a result of this competition will receive one grant award annually for four consecutive years, subject to appropriated funding, starting in PY 2018. Each annual grant award will have a 36-month period of performance. Grantees will receive a new grant with a new grant number in each of those four years contingent on the availability of funds and satisfactory progress towards achieving the goals and objectives of the grant. The anticipated start date for awardees that receive both youth and adult funding is April 1, 2018, while the anticipated start date for awardees that receive only adult funding is July 1, 2018. The period of performance detailed above includes all necessary implementation and start-up activities.

Coordinating Center to Support NIDA Rural Opioid HIV and Comorbidity Initiative (U24 - Clinical Trial Not Allowed) - Department of Health and Human Services, National Institutes of Health

DEADLINE: Aug 15, 2018

AMOUNT: \$500,000

DESCRIPTION: The purpose of this FOA is to fund a single interdisciplinary Coordinating Center to formalize and centralize support of the rural opioid initiative administered by NIDA and co-funded by CDC, SAMHSA, and ARC. This initiative was funded under RFA-DA-17-014 and RFA-DA-17-023. The Coordinating Center will provide scientific, technical, regulatory, ethical, and logistical support of data comparability, new data collection, and data integration; developing integrated rural opioid initiative datasets; assisting grantees with acquisition and analysis of local administrative and/or research datasets that enable evaluation of their implementation activities or augment their community assessments; conducting requested analyses that relate to the integrated rural opioid initiative datasets; developing and executing a rural opioid initiative publication and dissemination plan; and providing logistical support for in-person meetings, conference calls, and webinars that include the rural opioid initiative grantees and funders. The Coordinating Center will be represented on the rural opioid initiative executive steering committee, along with the funders and rural opioid initiative grantees.

Street Outreach Program -Department of Health and Human Services, Administration for Children & Families - ACYF/FYSB

DEADLINE: Jun 20, 2018 Electronically submitted applications must be submitted no later than 11:59 p.m., ET, on the listed application due date.

AMOUNT: \$150,000

DESCRIPTION: The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau (FYSB) announces the availability of funds under the Street Outreach Program (SOP). SOPs work to increase young people's personal safety, social and emotional well-being, self-sufficiency, and to help them build permanent connections with families, communities, schools, and other positive social networks. These services, which are provided in areas where street youth congregate, are designed to assist such youth in making healthy choices and to provide them access to shelter and services which include: outreach, gateway services, screening and assessment, harm reduction, access to emergency shelter, crisis stabilization, drop-in centers, which can be optional, and linkages/referrals to services. The award process for FY2018 SOP allows for annual awards over a three-year project period, as funds are available.

April 2018

Evidence for Action: Matching Service

DEADLINE: April 26, 2018, 3:00 p.m. ET

AMOUNT: one \$700,000 grant for an initial 24-month period

DESCRIPTION: The goal of this effort is to catalyze research partnerships that result in rigorously designed studies that could be funded by Evidence for Action (E4A), another Robert Wood Johnson Foundation (RWJF) program, or other funding source. We are particularly interested in matching organizations that do not have a track record of RWJF funding. To achieve this goal, E4A will support a “matching team” overseen by a grantee organization that meets the eligibility criteria noted below. The grantee’s primary role will be to link organizations working in and with communities with strong research partners to rigorously evaluate the health impacts of program or policy interventions. Organizations working in and with communities may include health care providers, nonprofits, community-based organizations, and social service or government agencies, which have the infrastructure to implement initiatives but limited research capacity for scientifically rigorous evaluation of their impact.

WEBSITE/LINK: https://www.rwjf.org/en/library/funding-opportunities/2018/evidence-for-action--matching-service.html?rid=0034400001rluooAAA&et_cid=1189534

Mary Kay Foundation Accepting Applications for Domestic Violence Shelter Grant Program

DEADLINE: April 30, 2018

AMOUNT: Funds awarded by the foundation may be applied to the operating budget of the applicant (with the exception of staff travel). The foundation will award a grant to at least one domestic violence shelter in every state. Any remaining funds will be distributed based on state population. Grant awards will be announced in October in conjunction with National Domestic Violence Awareness Month.

DESCRIPTION: The goal of the Mary Kay Foundation is to eliminate domestic violence. As a part of this effort, the foundation makes grants to organizations in the United States that operate emergency shelters for survivors of domestic violence.

Healthy Transitions: Improving Life Trajectories for Youth and Young Adults with Serious Mental Disorders Program (Short Title: Healthy Transitions) - Department of Health and Human Services, Substance Abuse and Mental Health Services Admin

DEADLINE: Monday, May 14, 2018

AMOUNT: Anticipated Number of Awards: Up to 4; Anticipated Award Amount: Up to \$1,000,000 per year; Length of Project: Up to 5 years; Cost Sharing/Match Required?: No

Proposed budgets cannot exceed \$1,000,000 in total costs (direct and indirect) in any year of the proposed project. Annual continuation awards will depend on the availability of funds, recipient progress in meeting project goals and objectives, timely submission of required data and reports, and compliance with all terms and conditions of award.

Funding estimates for this announcement are based on an annualized Continuing Resolution and do not reflect the final FY 2018 appropriation. Applicants should be aware that funding amounts are subject to the availability of funds.

DESCRIPTION: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS), is accepting applications for fiscal year (FY) 2018 Healthy Transitions: Improving Life Trajectories for Youth and Young Adults With Serious Mental Disorders Program grants (Short Title: Healthy Transitions). The purpose of this program is to improve access to treatment and support services for youth and young adults, ages 16-25, who have a serious emotional disturbance (SED) or a serious mental illness (SMI), hereafter referred to as serious mental disorders. It is expected that this program will improve emotional and behavioral health functioning so that this population of youth and young adults can maximize their potential to assume adult roles and responsibilities and lead full and productive lives.

Youth and young adults with SMI or SED between the ages of 16-25, including those with intellectual developmental disabilities, may not be working, in school, or in vocational and higher education programs. Some face the additional challenge of experiencing

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

homelessness, or being in contact with the juvenile or criminal justice system, thereby increasing the likelihood of admissions to hospitals, mental health, and/or correctional facilities. Unfortunately, these same youth are among the least likely to seek help and may “fall through the cracks” and not receive the services and supports they need to become productive and healthy adults. It is imperative that appropriate outreach and engagement processes are developed and implemented to create access to effective behavioral health interventions and supports.

The overall goal of Healthy Transitions will be to provide developmentally appropriate, culturally and linguistically competent services and supports to address serious mental disorders among youth 16 – 25 years of age. This will be accomplished by increasing awareness, screening and detection, outreach and engagement, referrals to treatment, coordination of care, and evidence-informed treatment.

Healthy Transitions will accomplish program goals by:

Creating, implementing, and expanding services and supports that are developmentally appropriate, culturally competent, and youth and young adult-driven, involve family and community members (including business leaders and faith-based organizations), and provide for continuity of care and support between child- and adult-serving systems.

Improving cross-system collaboration, service capacity, and expertise related to the population(s) of focus through Infrastructure and organizational change at the state/tribal level.

Implementing public awareness and cross-system provider training (e.g., higher education/community colleges, behavioral Healthy Transition grants are authorized under Section 520A (290bb-32) of the Public Health Service Act, as amended.

This announcement also addresses Healthy People 2020 Mental Health and Mental Disorders Topic Area HP 2020-MHMD.

Second Chance Act Comprehensive Community-Based Adult Reentry Program

DEADLINE: May 1, 2018

AMOUNT:

Category 1:

Award ceiling: \$1,000,000

Project period: 3 years

Estimated number of awards: 8

Category 2:

Award ceiling: \$500,000

Project period: 3 years

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

Estimated number of awards: 4

DESCRIPTION: This program provides grants to help communities develop and implement comprehensive and collaborative strategies that address the challenges posed by reentry and recidivism reduction.

There are two award categories.

Community-based adult reentry: Must commit to serving a minimum of 150 people

Community-based adult reentry with small and rural organizations: Must commit to serving a minimum of 75 people

Funds should be used to:

Conduct assessments using reliable, locally validated risk and needs tools to match individuals with appropriate treatment and reentry services

Provide pre- and post-release case management that is sustained over a period of at least 6 months after release

Support a comprehensive range of services, including:

Treatment services that employ the cognitive, behavioral, and social learning techniques of modeling, role playing, reinforcement, resource provision, and cognitive restructuring

Substance abuse treatment, including alcohol abuse

Educational, literacy, and vocational training, as well as job readiness and job placement services

Housing and homelessness support services, including permanent supportive housing

Medical and mental healthcare services, including facilitating enrollment in healthcare plans

Facilitating obtaining locally issued identification cards and other proof of identity

Veteran-specific services, as applicable

Culturally-based programming

Programs that encourage safe, healthy, and responsible family and parent-child relationships and enhance family reunification, as appropriate

Gender responsive and trauma informed services

NIJ - Research and Evaluation in Safety, Health, and Wellness in the Criminal Justice System

DEADLINE: May 14, 2018

AMOUNT: \$3 million (Six awards for 3 years.)

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

DESCRIPTION: With this solicitation, NIJ seeks applications for funding of multidisciplinary research projects addressing four topics:

- 1) The impact of fatigue and stress on officer performance.
- 2) The impact of occupational prestige and job satisfaction on officer stress resilience.
- 3) Enhancing strategies for officer interaction with mentally ill individuals.
- 4) Reducing traffic-related officer fatalities and injuries through technology enhancement and policy.

This solicitation supports the U.S. Department of Justice's priority of protecting officers and other public safety personnel. This solicitation also supports the following three objectives of the NIJ Safety, Health, and Wellness Strategic Research Plan 2016-2021 (August 2016):

- 1) Objective I.1: Promote vehicular and traffic safety for officers.
- 2) Objective I.3: Develop policies, strategies, and technologies to promote safety in criminal justice interactions with the public.
- 3) Objective II.1: Promote research to improve the physical and mental health of individuals working in the criminal justice system.

All four topics, in varying degrees, lend themselves to a mixed-method approach involving the measurement of behavioral, psychological, and physiological responses, as well as the application of social science and/or operations research techniques.

Research proposed on topics outside of the four (4) categories proposed in this solicitation will not be considered. Applications must specify which of the categories they are responding to in the title of their proposal.

William T. Grant Foundation Seeks Applications for Inequality Research

DEADLINE: May 2, 2018

AMOUNT: Through its Research program, the foundation will award grants of up to \$600,000 in support of research that focuses on ways to reduce disparities in academic, behavioral, social, and economic outcomes for youth. Priority will be given to projects related to inequality related to economic, racial/ethnic, and language background, but research that explores other areas will also be considered based on a compelling case for its impact.

DESCRIPTION: In recent years, inequality in the United States has become increasingly pervasive. At the same time, prospects for social mobility have decreased. The William T. Grant Foundation believes the research community can play a critical role in reversing this trend.

To that end, the foundation is accepting applications in support of research projects designed to advance understanding in the area of inequalities in youth development and/or increase understanding of how research is acquired, understood, and used, as well as the circumstances that shape its use in decision making.

Administrative Supplements for Research on Sexual and Gender Minority (SGM) Populations (Admin Supp Clinical Trial Optional)

DEADLINE: May 7, 2018, by 5:00 PM local time of applicant organization.

AMOUNT: Application budgets are limited to no more than the amount of the current parent award and must reflect the actual needs of the proposed project but must not exceed \$100,000 in total costs.

DESCRIPTION: The mission of the NIH is to seek fundamental knowledge about the nature and behavior of living systems, and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. The NIH is committed to supporting research that will increase scientific understanding of the health and wellbeing of various population and subpopulation groups and study the effectiveness of evidence-based health interventions and services for individuals within those groups. NIH places high priority on research with populations that appear to have distinctive health risk profiles but have received insufficient attention from investigators. This Supplement provides administrative support to expanding existing research to focus on sexual and gender minority (SGM) populations, which include (but are not limited to) lesbian, gay, bisexual, and transgender people, and individuals with differences or disorders of sex development (DSD) (sometimes referred to as "intersex"). Basic, social, behavioral, clinical, translational, and health services research relevant to the missions of the sponsoring Institutes, Centers and Offices may be proposed. Potential applicants are also encouraged to review recent portfolio analyses of NIH-funded SGM research (found at <https://dpcpsi.nih.gov/sgmro/reports>) to identify gaps in research that may be relevant to this Funding Opportunity Announcement (FOA).

WEBSITE/LINK: [https://grants.nih.gov/grants/guide/pa-files/PA-18-713.html# Section II. Award 1](https://grants.nih.gov/grants/guide/pa-files/PA-18-713.html#_Section_II._Award_1)

Intervention Research to Improve Native American Health (R01 Clinical Trial Optional) Department of Health and Human Services/National Institutes of Health

DEADLINE: May 14, 2018; (forecast) May 14, 2019; May 14, 2020, by 5:00 PM local time of applicant organization. All types of non-AIDS applications allowed for this funding opportunity announcement are due on these dates.

Applicants are encouraged to apply early to allow adequate time to make any corrections to errors found in the application during the submission process by the due date.

AMOUNT: Application budgets are not limited but need to reflect the actual needs of the proposed project. The scope of the proposed project should determine the project period. The total project period may not exceed 5 years.

DESCRIPTION: The purpose of this funding opportunity announcement (FOA) is to encourage exploratory developmental research to improve Native American (NA) health. Such research can include: conducting secondary analysis of existing data (such as databases that the Tribal Epidemiology Centers have collected); merge various sources of data to answer critical research questions; conduct pilot and feasibility studies; and/or assess and validate measures that are being developed and/or adapted for use in NA communities.

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

For the purposes of this FOA, the term 'Native Americans' includes the following populations: Alaska Native, American Indian, and Native Hawaiian. The term 'Native Hawaiian' means any individual whose ancestors were natives, prior to 1778, belonging to the area that now comprises the State of Hawaii.

Studies should: be culturally appropriate and result in promoting the adoption of healthy lifestyles; improve behaviors and social conditions and/or improve environmental conditions related to chronic disease; prevent or reduce the consumption of tobacco, alcohol, and other drugs; improve mental health outcomes; reduce risk of HIV infection; improve treatment adherence and/or health-care systems adopting standards of care to improve overall quality of life.

Research Grants for the Primary or Secondary Prevention of Opioid Overdose (R01)

Department of Health and Human Services, Centers for Disease Control and Prevention – ERA

DEADLINE: May 15, 2018 Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

AMOUNT: \$750,000

DESCRIPTION: The awards pursuant to this Notice of Funding Opportunity are contingent upon the availability of funds. The Centers for Disease Control and Prevention's National Center for Injury Prevention and Control (NCIPC) is soliciting investigator-initiated research that will help expand and advance our understanding about what works to prevent overdose from prescription and illicit opioids by developing and piloting, or rigorously evaluating novel primary or secondary prevention interventions. The intent of this Notice of Funding Opportunity (NOFO) is to: (1) build the scientific base for the primary or secondary prevention of opioid overdose, and (2) encourage collaboration of scientists from a spectrum of disciplines including public health, epidemiology, law enforcement, social work, economics, and criminal justice to perform research that can identify ways to prevent opioid overdose more effectively. Interventions can be strategies, programs, or policies. Ultimately, this research is intended to improve state and local health departments; ability to implement and improve interventions focused on preventing opioid-related deaths. Researchers are expected to develop and pilot, or rigorously evaluate novel primary or secondary prevention interventions that address prescription or illicit opioid overdose. Primary prevention approaches are expected to aim to prevent opioid misuse, abuse, and overdose before it occurs. Secondary prevention approaches are expected to focus on the more immediate responses to opioid overdose, such as emergency department services and linkage to treatment immediately following a nonfatal overdose. Clinical examinations of the treatment effectiveness for opioid use disorder are outside the scope of the objectives and will not be considered (e.g., studies that solely test the effectiveness of buprenorphine, methadone, or naltrexone). It is anticipated that funded applicants will collaborate and partner with community and/or governmental organizations from multiple sectors (e.g., health, social services, law enforcement, criminal justice) that can provide access to populations at highest risk for opioid misuse and overdose and provide access to critical data systems. Investigators must provide information in the application demonstrating that they have an established relationship with each partner and a written agreement describing each partner's role in the proposed research.

Promoting Resources for Fetal Alcohol Spectrum Disorders Awareness and Prevention - CDC-RFA-DD18-1801

DEADLINE: May 16, 2018 Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

AMOUNT: \$400,000 per year

DESCRIPTION: CDC plans to fund one organization to raise awareness about the risks of prenatal alcohol exposure and improve understanding about individuals affected by fetal alcohol spectrum disorders (FASDs) as well as to promote the prevention of FASDs and care of affected individuals. The work will focus on five major activities: (1) maintaining a national resource directory, (2) developing and disseminating information and resources to various audiences, (3) building capacity for state and local affiliates dedicated to services for FASD prevention as well as identification, care, and support for individuals with FASDs and their families, (4) conducting media outreach and media training, and (5) supporting a speakers bureau for enhanced FASD awareness and prevention efforts. The short-term outcomes to be achieved by the end of the project period focus on increased access to local and state-based resources across the country; increased access to accurate information on FASD prevention as well as identification, support, and care for individuals with FASDs and their families; improved linkages between healthcare champions and local affiliates; and

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

increased awareness of the risks of prenatal alcohol use through use of presenters with lived experience.

**Implementing Alcohol Screening and Brief Intervention in Healthcare Systems
Providing Women's Health Services
Department of Health and Human Services, Centers for Disease Control - NCBDDD**

DEADLINE: May 16, 2018

AMOUNT: \$400,000 per year

DESCRIPTION: The purpose of this Notice of Funding Opportunity (NOFO) is to reduce risky alcohol use among women of childbearing age through system-level implementation of alcohol screening and brief intervention (SBI) in health systems providing women's health services. Risky alcohol use can result in a variety of negative health and social consequences, such as motor vehicle crashes, intimate partner violence, and fetal alcohol spectrum disorders. It is costly, results in over 88,000 deaths annually, and can affect serious medical conditions, such as hypertension, liver disease and certain types of cancer. Health professionals are uniquely positioned to intervene with patients with acute and chronic health conditions caused or exacerbated by risky alcohol use. Alcohol SBI implementation efforts within health systems will focus on development and implementation of: a training and technical assistance plan; alcohol SBI protocols in primary care clinics; system-level approaches that facilitate uptake (e.g., electronic health record integration and performance metrics); an evaluation plan assessing feasibility and impact of system-level implementation; a dissemination plan on promising models and lessons learned; and a sustainability plan. Expected performance outcomes include documenting provider/clinic readiness to conduct alcohol SBI, documenting implementation barriers and proposed solutions, tracking clinic-level data on alcohol SBI, and assessing the use of system-level strategies.

Native Student Travel Scholarship Program: Connecting Science to Crime and Justice

DEADLINE: May, 18, 2018

AMOUNT: Funding will cover the costs of conference registration fees, round-trip airfare, lodging, ground transportation, baggage fees, meals, and incidental expenses. Scholarship recipients will be expected to arrange their travel so they arrive prior to and depart after the conference dates listed below. Throughout the conference experience, scholarship recipients will have the opportunity to interact with and learn more about the work of NIJ and NIJ's scientists, as well as researchers and practitioners from the field of criminal justice. Specific meeting information will be sent to selected applicants at a later date.

DESCRIPTION: Are you an American Indian or Alaska Native student who is enrolled in an undergraduate or graduate program AND are you interested in issues related to public safety, crime, and justice?

Would you like to learn how your education can be used to solve complex issues in these fields?

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

If so, the National Institute of Justice (NIJ) would like to help you explore science in criminal justice and public safety through conference scholarships!

To enhance diversity in the field of criminal justice, NIJ will support up to fifteen American Indian and Alaska Native students to attend a criminal justice-related conference to explore the role of science in solving complex problems to increase public safety. Attendance at these conferences will allow students to explore the ways their interest in science applies to crime and justice, and to meet researchers and practitioners currently engaged in similar work. Additionally, students will learn about innovative, evidence-based, and technological solutions to justice issues.

NIJ FY18 Criminal Justice Testing and Evaluation Consortium - Department of Justice National Institute of Justice

DEADLINE: May 29, 2018

AMOUNT: \$4,000,000

DESCRIPTION: With this solicitation, NIJ seeks proposals to establish a Criminal Justice Testing and Evaluation Consortium. The consortium will inform NIJs R&D efforts, as well as, NIJs stakeholders - criminal justice practitioners, policymakers, researchers, federal partners, and private industry by (1) conducting technology foraging activities to identify technologies for potential use by criminal justice communities, (2) conducting characterization/comparative testing and evaluations on technologies and practices to disseminate information and/or promising practices for adoption, (3) administering the NIJ Compliance Testing Program (CTP) and (4) supporting the development, validation, and maintenance of criminal justice equipment standards.

Assertive Community Treatment Grants (Short Title: ACT) - Department of Health and Human Services, Substance Abuse and Mental Health Services Admin

DEADLINE: May 29, 2018

AMOUNT: \$678,000

DESCRIPTION: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS) is accepting applications for fiscal year (FY) 2018 Grants to Establish and Expand Assertive Community Treatment (Short Title: ACT). The purpose of this program is to establish or expand and maintain ACT programs for individuals with a serious mental illness (SMI). SAMHSA expects this program will improve behavioral health outcomes for individuals by reducing rates of hospitalization, mortality, substance use, homelessness, and involvement with the criminal justice system. ACT is considered to be one of the most effective evidence-based programs designed to support community living for individuals with the most severe functional impairments associated with SMI. Such individuals tend to need services from multiple providers (e.g., physicians, social workers) and multiple systems (e.g., social services, housing services, health care). Based on the ACT model, a multi-disciplinary team is

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

available around the clock to deliver a wide range of services in a person's home or other community settings. ACT was developed to deliver comprehensive and effective services to those who live with the most serious psychiatric symptoms, the most significant social functioning challenges, and whose needs have not been well met by traditional approaches. ACT is a service delivery model, not a case management program. The ACT team model is composed of 10-12 multi-disciplinary behavioral health care staff who work together to deliver a mix of individualized, recovery-oriented services to persons living with SMI to help them successfully integrate into the community. Team members themselves provide the comprehensive array of services directly rather than through referrals. Caseloads are approximately one staff for every 10 individuals served. Services are provided 24 hours - 7 days a week, as long as needed and wherever they are needed. ACT teams often find they can anticipate and avoid crises.

Provision of Technical Assistance and Training Activities to Assure Comprehensive Cancer Control Outcomes - Department of Health and Human Services, Centers for Disease Control - NCCDPHP

DEADLINE: May 30, 2018 Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

AMOUNT: \$825,000

DESCRIPTION: The proposed Funding Opportunity Announcement supports the provision of technical assistance and training to National Comprehensive Cancer Control grantees and their coalitions by national organizations with demonstrated capacities and expertise in chronic disease prevention and health promotion. This effort will contribute to the full adoption of evidence-based and promising comprehensive cancer control interventions in the areas of primary prevention, screening, and survivorship. This effort also aims to improve comprehensive cancer control program capacity to expand the reach of the target audience, efficiently use resources, increase competence and commitment for health action and change, and increase ability to respond to emerging health issues.

OJJDP FY 18 Juvenile Reentry Research and Evaluation Program - Department of Justice, Office of Juvenile Justice Delinquency Prevention

DEADLINE: May 31, 2018

AMOUNT: \$1,000,000

DESCRIPTION: The purpose of this project is to support methodologically rigorous research and evaluations (ideally a randomized controlled demonstration field experiment) with practical implications for government-funded juvenile reentry including in areas not limited to screening and assessment, behavioral management, organizational or institutional capacity and structure, cross-system services and coordination, post-release services and supervision, and family engagement and support. OJJDP is particularly interested in studies that focus on effective strategies for juveniles with co-occurring substance abuse and mental health issues; gang involved juveniles; and older juveniles or young adults who are returning to communities struggling with violence and crime.

COMMUNITY GRANTS

FY2018 AmeriCorps Indian Tribes Grants - Corporation for National and Community Service

DEADLINE: Wednesday, May 2, 2018 at 5:00 p.m. Eastern Time. CNCS expects that successful applicants will be notified no later than Monday, June 25, 2018.

Intent to Apply: CNCS strongly encourages applicants to submit a Notification of Intent to Apply by Monday, April 2, 2018 by using this link:

<https://www.surveymonkey.com/r/2018ACTribesIntent>

AMOUNT:

1. Estimated Available Funds

CNCS expects a highly competitive AmeriCorps grant competition. CNCS reserves the right to prioritize providing funding to existing awards over making new awards. The actual level of funding will be subject to the availability of annual appropriations.

2. Estimated Award Amount

Grant awards have two components: operating funds and AmeriCorps member positions. Grant award amounts vary – both in the level of operating funds and in the type and amount of AmeriCorps member positions – as determined by the scope of the projects.

3. Project and Award Period

The project period is generally one year, with a start date proposed by the applicant. The grant award covers a three-year project period unless otherwise specified. In most cases, the application is submitted with a one-year budget. Continuation funding for subsequent years is not guaranteed and shall be dependent upon availability of appropriations and satisfactory performance.

DESCRIPTION: CNCS Focus Areas

The National and Community Service Act of 1990, as amended by the Serve America Act, emphasizes measuring the impact of service and focusing on a core set of issue areas. In order to carry out Congress' intent and to maximize the impact of investment in national service, CNCS has the following focus areas:

Disaster Services

Grant activities will provide support to increase the preparedness of individuals for disasters, improve individuals' readiness to respond to disasters, help individuals recover from disasters, and/or help individuals mitigate disasters. Grantees also have the ability to respond to national disasters under CNCS cooperative agreements and FEMA mission assignments.

Economic Opportunity

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

Grants will provide support and/or facilitate access to services and resources that contribute to the improved economic well-being and security of economically disadvantaged people; help economically disadvantaged people, to have improved access to services that enhance financial literacy; transition into or remain in safe, healthy, affordable housing; and/or have improved employability leading to increased success in becoming employed.

Education

Grants will provide support and/or facilitate access to services and resources that contribute to improved educational outcomes for economically disadvantaged children; improved school readiness for economically disadvantaged young children; improved educational and behavioral outcomes of students in low-achieving elementary, middle, and high schools; and/or support economically disadvantaged students prepare for success in post-secondary educational institutions.

Environmental Stewardship

Grants will support responsible stewardship of the environment, while preparing communities for challenging circumstances and helping Americans respond to and recover from disruptive life events: programs that conserve natural habitats; protect clean air and water; maintain public lands; support wildland fire mitigation; cultivate individual and community self-sufficiency; provide reforestation services after floods or fires; and more. AmeriCorps programs support activities, such as conservation and fire corps, which may also help veterans and others learn new job skills through conservation service.

Healthy Futures

Grants will provide support for activities that will improve access to primary and preventive health care for communities served by CNCS-supported programs; increase seniors' ability to remain in their own homes with the same or improved quality of life for as long as possible; and/or increase physical activity and improve nutrition in youth with the purpose of reducing childhood obesity.

JUNE 2018

Forecast 1

Networking2Save: CDCs National Network Approach to Preventing and Controlling Tobacco-related Cancers in Special Populations - Department of Health and Human Services, Centers for Disease Control – NCCDPHP

DEADLINE: Jun 01, 2018 Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

AMOUNT: \$500,000

DESCRIPTION: Cigarette smoking and exposure to secondhand smoke (SHS) is the leading preventable cause of death in the United States, resulting in approximately 480,000 premature deaths and 16 million smoking-related illnesses. Cigarette smoking can lead to increased cardiovascular disease, multiple types of cancer, pulmonary disease, adverse reproductive outcomes, and the exacerbation of chronic health conditions. Annual costs associated with tobacco-related illnesses amount to nearly \$280 billion in medical expenses and lost productivity. Electronic cigarette (e-cigarette) use among U.S. youth and young adults has increased considerably, growing 900% among high school students from 2011 to 2015. Cancer is the second leading cause of death in the United States, with approximately 1.5 million new diagnoses and over 550,000 deaths each year. Commercial Tobacco use is the leading preventable cause of cancer and cancer deaths. It can cause not only lung cancer but also cancers of the mouth and throat, voice box, esophagus, stomach, kidney, pancreas, liver, bladder, cervix, colon and rectum, and a type of leukemia. Each year, 660,000 people in the US are diagnosed with and 343,000 people die from a cancer related to commercial tobacco use. The direct cost of cancer care in the United States was \$125 billion in 2010, and is expected to increase to \$158 billion in 2020. Tobacco-Related Disparities Tobacco disparities exist among racial and ethnic groups, including persons with low socioeconomic status (SES), persons with histories of mental illnesses and substance abuse disorders, the lesbian, gay, bisexual, and transgender (LGBT) community, persons with disabilities, persons living in certain geographic regions, and among youth high school drop-outs. Nearly 1 in 4 LGBT adults smoke cigarettes compared with about 1 in 6 heterosexual/straight adults. Approximately 25% of U.S. adults have some form of mental illness or substance use disorder, and these adults consume almost 40% of all cigarettes smoked by adults. 2016 BRFSS estimates of current smoking rates for persons with disabilities in the US are 28.2% compared to 13.4% for persons without disabilities. The proportion of current cigarette smokers who report smoking daily is highest among smokers living in the Midwest (68.3%), and lowest among those in the West (56.9%). Differences in flavored tobacco use, including menthol, exist across states and subpopulations. Subpopulations with the greatest overall prevalence of flavored tobacco use include persons who are male, younger in age, non-Hispanic, or non-white. Nearly 9 of every 10 African American smokers (88.5%) aged 12 years and older prefer menthol cigarettes. Disparities in the number of smokers who quit also persist among specific subpopulations including non-Hispanic blacks, persons with lower education, persons with disabilities, and persons on Medicaid or without health insurance. While information about the dangers of cigarette smoking have been provided to the public for more than 40 years, this basic information may not have reached persons who have limited English proficiency, such as those who have recently arrived in the United States, e.g. Asian Americans, Pacific Islanders and Hispanics. Forty percent of the U.S. population live in state or local communities with no comprehensive smoke-free air laws. Secondhand tobacco smoke exposure causes heart disease and lung cancer in nonsmoking adults and sudden infant death syndrome, acute respiratory infections, middle ear disease, exacerbated asthma, respiratory symptoms, and decreased lung function in children. Cancer-Related Disparities Twelve cancers are caused by commercial tobacco use (lung, esophageal, laryngeal, oral cavity and pharyngeal, stomach, pancreatic, kidney, bladder, cervical and some leukemia's); and evidence exists for a causal relationship with several others. Furthermore, tobacco use also impacts health outcomes in patients and survivors with these tobacco-related cancers as well as other cancers. Tobacco use could adversely affect treatment outcomes, increase all-cause and cancer specific mortality, and also increase risk for second primary cancers. While lung cancer is the leading cause of cancer death among most men and women in the United States, several populations experience a disproportionately high number of cancer diagnoses and high rates of cancer-related deaths. The liver cancer rate among African

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

American (10.3) per 100,000), Asian Pacific Islander (12.4), American Indian/Alaska Native (11.1), and Hispanic (13.4) men is much higher compared to white men (7.4). Additionally, liver cancer is the fourth and fifth leading cause of cancer death among Asian American and Pacific Island men respectively. Among Hispanic females, cervical cancer is the seventh most common cancer, with a rate of 7.5 per 100,000, a rate substantially higher than the U.S. aggregate of 9.4. Death rates from cervical cancer are higher among African American and Hispanic women compared to others. Uterine (endometrial) cancer is the fourth most common cancer among women in the United States; however, death rates from this cancer are almost twice as high among African American women (7.1) compared to white women (3.9). Finally, while white women have higher incidence rates of breast cancer, breast cancer death rates are lower among white women than among African American women (20.5, 28.1, respectively). Evidence-based, public health approaches for reducing the risk of cancer occurrence, and increasing the quality and duration of life following a cancer diagnosis includes prevention and cessation of commercial tobacco use, reduced exposure to secondhand smoke, regular physical activity, and maintenance of a healthy weight. Routine consultation with health-care providers about recommended screening and vaccination schedules are critical as well. Survivorship plans that lay out the follow up prevention work as well. The Office on Smoking and Health and Division of Cancer Prevention and Control seek to build on the successes of the previously funded National Networks (CDC-RFA-DP13-1314) and expand work to address tobacco-and cancer- related health disparities among these populations. This NOFO will focus prevention and control efforts on populations most vulnerable and harder to reach. Many factors also contribute to cancer-related disparities such as socioeconomic status, cultural characteristics, diet, and access to healthcare services. Efforts will address the unique need for population-specific capacity and infrastructure to support tobacco and cancer control strategies and promote access to tobacco cessation services, cancer prevention, and treatment and survivor resources for populations experiencing disparities. Tailored strategies are designed to achieve the benefits of an overall population-based policy approach to commercial tobacco and cancer control. The NOFO seeks to eliminate tobacco-and cancer- related health disparities. National Networks selected (up to 8) may focus on one of the following specific populations experiencing tobacco and cancer-related health disparities: 1) African Americans; 2) American Indians/Alaskan Natives; 3) Asian Americans/Pacific Islanders/Hawaiian Natives; 4) Latinos/Hispanics; 5) Lesbian, Gay, Bisexual and Transgender persons; 6) Persons with Low Socioeconomic Status; 7) Persons with Mental Health and Substance Abuse Disorders; and 8) Geographically Defined Populations with High Commercial Tobacco Use and Related Health Disparities. A culturally tailored approach for these specific populations will help prevent the high prevalence of commercial tobacco use and tobacco-related cancers and accelerate the elimination of existing disparities, thus achieving the benefits of an overall population-based approach to commercial tobacco use prevention and cancer prevention and control. Program strategies will focus on national and state interventions, training, technical assistance, mass reach health communication, and network administration and management. Activities will be purpose fully are aligned with CDC's key domains (<https://www.cdc.gov/chronicdisease/resources/publications/four-domains.htm>), CDCs Winnable Battles (<https://www.cdc.gov/winnablebattles/report/tobacco.html>), and both the Office on Smoking and Health goals (<https://www.cdc.gov/tobacco/about/osh/index.htm>) and DCPC priorities (<https://www.cdc.gov/cancer/dcpc/about/programs.htm>). Some previous successes of Funding Announcement, CDC-RFA-DP13-1314, that will build on this current NOFO include: Increased reach of the work conducted by the previously-funded National Networks. The National Networks contributed to the development and/or expansion of their Networks through increasing representation and participation of membership and enhancement of infrastructure; as well as increased diversity in partnership that

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

contributed additional information and expanded reach, communication, coordination, and potential collaboration among the partners. Lessons learned from existing assessments were utilized to identify specific needs and/or gaps to inform the planning of activities to help in addressing the disparities and tailor technical assistance and training for the CDC funded National Tobacco Control Program (NTCP) and National Comprehensive Cancer Control Program (NCCCP) and stakeholders. Supporting documents were identified and disseminated that inform and assist with implementing evidence-based or promising interventions. Various tools and resources developed to help fill gaps.

Support for Citizen Education Initiatives - The Herb Block Foundation: Encouraging Citizen Involvement

DEADLINE: Letter of Intent- June 05, 2018. Full Proposal Invited- July 11, 2018. Full Proposal Due- August 08, 2018.

AMOUNT: Grants in the range of \$5,000 to \$25,000 will be considered. Grants will be considered for one year's funding.

DESCRIPTION: The Herb Block Foundation seeks to help ensure a responsible, responsive democratic government through citizen involvement. Proposals may focus on citizen education and greater voter participation in the electoral process. All projects must be nonpartisan and may not involve lobbying for specific legislation or candidates.

In addition to providing grants in this area, The Herb Block Foundation has initiated an annual public policy lecture program featuring prominent speakers on issues of national importance.

WEBSITE/LINK: <https://www.herblockfoundation.org/grant-programs/defending-basic-freedoms>

Research on the Health of Transgender and Gender Nonconforming Populations (R01 Clinical Trial Optional)

DEADLINE: June 5, 2018

AMOUNT: The number of awards is contingent upon NIH appropriations and the submission of a sufficient number of meritorious applications. Application budgets are not limited but need to reflect the actual needs of the proposed project. The scope of the proposed project should determine the project period. The maximum project period is 5 years.

DESCRIPTION: This funding opportunity announcement (FOA) calls for research on the health of transgender and gender nonconforming people of all ages, including both youth and adults who are questioning their gender identity and those individuals who are making or who have made a transition from being identified as one gender to the other. This group encompasses individuals whose gender identity differs from the sex on their original birth certificate or whose gender expression varies significantly from what is traditionally associated with or typical for that sex.

Colorado Health Foundation Accepting Applications for Activating Places and Spaces Together Program

DEADLINE: Jun 15, 2018, Oct 15, 2018

AMOUNT: To be eligible, applicants must be a nonprofit organization with experience working within the community (or communities) targeted and serve a high proportion of youth from high-need/low-income communities.

See the CHF website for complete program guidelines and application instructions.

DESCRIPTION: The program supports locally defined, place-specific efforts designed to get people outdoors and actively engaged in their neighborhoods — together. The goal of the community's overall health. Grants will be awarded to support costs associated with project/program planning and/or implementation.

To be eligible, applicants must be a nonprofit organization with experience working within the community (or communities) targeted and serve a high proportion of youth from high-need/low-income communities.

Women and Sex/Gender Differences in Drug and Alcohol Abuse/Dependence (R21 Clinical Trial Optional) Department of Health and Human Services/National Institutes of Health

DEADLINE: June 16; October 16, 2018

AMOUNT: \$200,000

DESCRIPTION: The purpose of this FOA is two-fold: (1) to advance identification of male-female differences in drug and alcohol research outcomes, to uncover the mechanisms of those differences, and to conduct translational research on those differences, and (2) to advance research specific to women or highly relevant to women. Both preclinical and clinical studies are sought across all areas of drug and alcohol research.

(Forecast 1) - WELL-INTEGRATED SCREENING AND EVALUATION FOR WOMEN ACROSS THE NATION (WISEWOMAN)

Department of Health and Human Services, Centers for Disease Control - NCCDPHP

DEADLINE: Jun 23, 2018 Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

AMOUNT: \$2,500,000

DESCRIPTION: The Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Division for Heart Disease and Stroke Prevention, announces the opportunity to apply for funds to implement the Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) program. The WISEWOMAN program extends preventive health services to women who are participants of the CDC-funded National Breast and Cervical Cancer Early Detection Program (NBCCEDP). These extended preventive health services include assessment of cardiovascular risk factors and provision of services to reduce those risks through improved diet, physical activity, tobacco cessation, and medication adherence support. A focus on the health systems and community-clinical links that are supportive of these preventive health services is required.

JULY 2018

Charles A. Frueauff Foundation Grants

DEADLINE: Jul 1, 2018

AMOUNT: Awards are generally for \$10,000 or less, especially for first-time grantees.

DESCRIPTION: Charles A. Frueauff Foundation Grants award funding to nonprofit organizations who work in the areas of education, human services, and health.

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

Education: Examples of funding priorities include: endowed scholarships, technology and software upgrades, infrastructure assistance, service learning, and persons leaving welfare, students preparing for employment in non-profit agencies, and activities for at-risk youth.

Human Services: Examples of funding priorities include: welfare-to-work programs, working with at-risk youth, daycare programs, hunger issues, and economic development initiatives.

Health: Specific institutions and specific programs (hospitals and health agencies), rather than national organizations, are usually given priority. Examples of funding priorities include: equipment, outreach programs, staff positions, screening and education materials, programs for at-risk children and their parents, support for the critically ill, AIDS/HIV education programs, and nursing scholarships.

(WASHINGTON ONLY) Arcora Foundation Grants

DEADLINE: Jul 1, 2018

AMOUNT: Award amounts vary by organization and project.

DESCRIPTION: The Arcora Foundation provides:

Capital funding to increase access to dental care

Operational funding to test innovative oral health delivery strategies and address social determinants of health

Examples of successfully funded projects could include a capital grant to expand an existing FQHC dental clinic and an operational grant to hire a community health worker to outreach into a local immigrant community.

Projects must meet at least two of the following criteria:

Located in Washington and benefits individuals within Washington

Located in a non-urban community or within a Dental HPSA

Located in a community with unmet dental needs

Located in local impact network (LIN) community

AUGUST 2018

Advancing Exceptional Research on HIV/AIDS and Substance Abuse (R01 Clinical Trial Optional)

DEADLINE: August 22, 2018

AMOUNT: Application budgets are not limited but need to reflect the actual needs of the proposed project. The scope proposed should determine the project period. The maximum project period is five years.

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

DESCRIPTION: This FOA supports highly innovative R01 applications on HIV/AIDS and drug abuse and complements the Avant-Garde Award Program for HIV/AIDS and Drug Use Research and the Avenir Award Program for Research on Substance Abuse and HIV/AIDS. The Avant-Garde award supports individuals who conduct high-risk, high-reward research and does not require a detailed research plan. The Avenir award is similar to the Avant-Garde award but focuses on support for early stage investigators. Applications submitted under this FOA are required to have a detailed research plan and preliminary data. This FOA focuses on innovative research projects that have the potential to open new areas of HIV/AIDS research and/or lead to new avenues for prevention and treatment of HIV/AIDS among substance abusers. The nexus with drug abuse should be clearly described. This FOA is open to both individual researchers and research teams and is not limited to any one area of research on HIV and substance use, but all studies must focus on NIH HIV/AIDS Research Priorities <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-15-137.html>.

NO DEADLINE – GRANT RESOURCE INFORMATION

Elizabeth Taylor AIDS Foundation Seeks Applications for HIV/AIDS Programs

DEADLINE: Strategic Funding – Year round by invitation only. (To be eligible, applicant organizations must have at least three years' experience in delivering HIV/AIDS programs.)

AMOUNT: One-year grants of up to \$25,000 will be awarded for domestic and international programs that offer direct care services to people living with HIV and AIDS. Online trainings, curriculum development, and website projects will be a secondary priority for funding considerations.

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

DESCRIPTION: The Elizabeth Taylor AIDS Foundation was established by Elizabeth Taylor in 1991 to provide grants to existing organizations for domestic and international programs that offer direct care services to people living with HIV and AIDS. Since its inception, the foundation has concentrated on supporting marginalized communities and has grown to also fund innovative HIV education and advocacy programs. To date, ETAF has awarded grants to more than six hundred and seventy-five organizations in forty-four countries and forty-two states in the United States.

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

DEADLINE:

Informational Web Conferences:

Lessons Learned from a Year of Evidence for Action Grant Reviews

February 18, 2016 from 1:30-2:30 p.m. ET (10:30-11:30 a.m. PT)

Registration is required.

Archived Web Conferences

Informational Web Conferences were scheduled for June 3, 2015 and July 22, 2015
Recordings for both events are now available.

June 3, 2015 web conference recording available [here](#).

July 22, 2015 web conference recording available [here](#).

Timing: **Since applications are accepted on a rolling basis**, there is no deadline for submission. Generally, applicants can expect to be notified within 6-8 weeks of their LOI submission. Applicants invited to the full proposal stage will have 2 months to submit their proposal once they receive notification. Full proposal funding decisions will generally be made within 6-8 weeks of the submission deadline.

AMOUNT: Approximately \$2.2 million will be awarded annually. We expect to fund between five and 12 grants each year for periods of up to 30 months. We anticipate that this funding opportunity will remain open for at least a period of three years; however, decisions about modifications to the program and the duration of the program will be made by RWJF at its sole discretion.

DESCRIPTION: Evidence for Action: Investigator-Initiated Research to Build a Culture of Health is a national program of RWJF that supports the Foundation's commitment to building a Culture of Health in the United States. The program aims to provide individuals, organizations, communities, policymakers, and researchers with the empirical evidence needed to address the key determinants of health encompassed in the Culture of Health Action Framework. In addition, Evidence for Action will also support efforts to assess outcomes and set priorities for action. It will do this by encouraging and supporting creative, rigorous research on the impact of innovative programs, policies and partnerships on health and well-being, and on novel approaches to measuring health determinants and outcomes.

Changes in Health Care Financing and Organization: Small Grants

DEADLINE: Grants are awarded on a rolling basis; proposals may be submitted at any time.

AMOUNT: This solicitation is for small grants of \$100,000 or less.

DESCRIPTION: Changes in Health Care Financing and Organization (HCFO) supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues. Supported projects include:

examining significant issues and interventions related to health care financing and organization and their effects on health care costs, quality and access; and

exploring or testing major new ways to finance and organize health care that have the potential to improve access to more affordable and higher quality health services.

Eligibility and Selection Criteria

Researchers, as well as practitioners and public and private policy-makers working with researchers, are eligible to submit proposals through their organizations. Projects may be initiated from within many disciplines, including health services research, economics, sociology, political science, public policy, public health, public administration, law and business administration. RWJF encourages proposals from organizations on behalf of researchers who are just beginning their careers, who can serve either individually as principal investigators or as part of a project team comprising researchers or other collaborators with more experience. Only organizations and government entities are eligible to receive funding under this program.

Preference will be given to applicants that are either public entities or nonprofit organizations that are tax-exempt under Section 501(c) (3) of the Internal Revenue Code and are not private foundations as defined under Section 509(a).

Complete selection criteria can be found in the Call for Proposals.

The National Children's Alliance

Deadline: <http://www.nationalchildrensalliance.org/>

Amount: See website

Description: The National Children's Alliance has a Request for proposals to help support the development of CACs and Multidisciplinary Teams. NACA encourages all tribal communities to apply. They can offer FREE technical support to help you with your application.

➤ Common Wealth Fund

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

The Commonwealth Fund encourages and accepts unsolicited requests on an ongoing basis. The Fund strongly prefers grant applicants to submit letters of inquiry using the online application form. Applicants who choose to submit letters of inquiry by regular mail or fax should provide the information outlined in a two- to three-page document.

They fund:

- **Delivery System Innovation and Improvement**
- **Health Reform Policy**

➤ **Health System Performance Assessment and Tracking**

<http://www.commonwealthfund.org/Grants-and-Programs/Letter-of-Inquiry.aspx>

➤ **Kaboom! Invites Grant Applications to Open Previously Unavailable Playgrounds**

Deadline: KaBOOM! is inviting grant applications from communities anywhere in the United States working to establish joint use agreements to re-open playground and recreational facilities previously unavailable due to safety and upkeep concerns. (No specific deadline.)

Amount: Let's Play Land Use grants of \$15,000 and \$30,000 will support creation of joint-use agreements between local governments and school districts that address cost concerns related to safety, vandalism, maintenance, and liability issues to re-open previously unavailable playgrounds and recreational facilities.

The \$15,000 grants will support the opening of at least four playgrounds in cities with populations of less than 100,000 people. The \$30,000 grants will support the opening of at least eight playgrounds in larger communities.

Description: Grants can be used for training and technical assistance, utilities and other building related to the extra use of the facility, legal fees, contract security

services, and marketing campaigns related to the joint-use agreement. Grant recipients must commit to opening the playgrounds within twelve months of the grant decision.

Complete grant application guidelines are available on the KaBOOM! website:

http://kaboom.org/about_kaboom/programs/grants?utm_source=direct&utm_medium=surl

➤ **Meyer Memorial Trust**

Deadline: Monthly (Except January, April and August)

Amount: Range generally from \$40,001 to \$300,000 with grant periods from one to two (and occasionally three) years.

Description: Responsive Grants are awarded for a wide array of activities in the areas of human services, health, affordable housing, community development, conservation and environment, public affairs, arts and culture and education. There are two stages of consideration before Responsive Grants are awarded. Initial Inquires are accepted at any time through MMT's online grants application. Applicants that pass initial approval are invited to submit full proposals. The full two-step proposal investigation usually takes five

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

to seven months. <http://www.mmt.org/program/responsive-grants>

➤ **Kellogg Foundation Invites Applications for Programs that Engage Youth and Communities in Learning Opportunities**

Deadline: No Deadline

Amount: No Amount Specified

Description: The W.K. Kellogg Foundation is accepting applications from nonprofit organizations working to promote new ideas about how to engage children and youth in learning and ways to bring together community-based systems that promote learning. The foundation will consider grants in four priority areas: Educated Kids; Healthy Kids; Secure Families; and Civic Engagement.

Educated Kids: To ensure that all children get the development and education they need as a basis for independence and success, the foundation seeks opportunities to invest in early child development (ages zero to eight) leading to reading proficiency by third grade, graduation from high school, and pathways to meaningful employment.

Healthy Kids: The foundation supports programs that work to ensure that all children grow and reach optimal well-being by having access to fresh, healthy food, physical activity, quality health care, and strong family supports.

Secure Families: The foundation supports programs that build economic security for vulnerable children and their families through sustained income and asset accumulation.

Civic Engagement: The foundation partners with organizations committed to inclusion, impact, and innovation in solving public problems and meeting the needs of children and families who are most vulnerable.

See the Kellogg Foundation Web site for eligibility and application guidelines.

http://foundationcenter.org/pnd/rfp/rfp_item.jhtml?id=411900024#sthash.8WbcfRk.dpuf

• **W.K. Kellogg Foundation**

Deadline: The Kellogg Foundation does not have any submission deadlines. Grant applications are accepted throughout the year and are reviewed at their headquarters in Battle Creek, Michigan, or in our regional office in Mexico (for submissions focused within their region).

Amount: NO LIMIT (Please read restrictions/What they won't fund.)

Description: What to Expect Once they receive your completed online application, an automated response, which includes your WKKF reference number, will be sent to you acknowledging its receipt. Their goal is to review your application and email their initial response to you within 45 days. Your grant may be declined or it may be selected for further development.

As part of review process you may be asked to submit your organization's financial reports and/or IRS Form 990. While this information may be required, it is not intended to be the overall determining factor for any funding. You will not be asked to provide any financial

SCHOLARSHIP:

The Meyerhoff Adaptation Project -

The Meyerhoff Scholars Program is open to all high-achieving high school seniors who have an interest in pursuing doctoral study in the sciences or engineering, and who are interested in the advancement of minorities in the sciences and related fields. Students must be nominated for the program and are most typically nominated by their high school administrators, guidance counselors, and teachers. Awards range from \$5,000 – \$22,000 per year for four years.

The Meyerhoff Selection Committee considers students academic performance, standardized test scores, recommendation letters, and commitment to community service. Scholars are selected for their interests in the sciences, engineering, mathematics, or computer science, as well as their plans to pursue a Ph.D. or combined M.D./Ph.D. in the

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

sciences or engineering. Reviewing the freshman class profile may provide an idea of the kinds of students who are admitted to UMBC and the Meyerhoff Scholars Program.

Applicants are expected to have completed a strong college preparatory program of study from an accredited high school. The minimum program of study should include:

English: four years

Social Science/History: three years

Mathematics*: three years

Science: three years

Language other than English: two years

*Students are strongly recommended to have completed four years of mathematics, including trigonometry, pre-calculus, and/or calculus.

Eligibility Criteria

To be considered for the Meyerhoff Scholars Program, prospective students must have at least a “B” average in high school science or math courses, and many applicants have completed a year or more of calculus. Preference is given to those who have taken advanced placement courses in math and science, have research experience, and have strong references from science or math instructors. In recent years, a strong preference has been given to those students interested in the Ph.D. or M.D./Ph.D. (over the M.D.).

Students must meet all eligibility requirements:

Minimum of 600 on the Math component of the SAT

Cumulative High School GPA of a 3.0 or above

Aspire to obtain a Ph.D. or M.D./Ph.D. in Math, Science, Computer Science, or Engineering

Display commitment to community service

Must be a citizen or permanent resident of the United States

~ONLY FOR WASHINGTON STATE UNIVERSITY~

First Scholars – The Suder Foundation

DEADLINE:

AMOUNT: The goal of the First Scholars program is to help first-generation college students succeed in school, graduate, and have a life complete with self-awareness, success and significance. Scholars receive personalized support, including a four-year renewable scholarship of \$5,000. The program is open to incoming first-time, full-time freshmen whose parents have no more than two years of education beyond high school and no post-secondary degree.

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

DESCRIPTION: The First Scholars™ Program is available to incoming first-time, full-time freshmen whose parents have no more than two years of education beyond high school and no post-secondary degree. Participation in First Scholars™ includes a four-year renewable scholarship, half disbursed in the fall semester and half disbursed in the spring semester. Students can receive the award depending on eligibility requirements for a total of 4 years if program requirements are met.

This scholarship is open to Washington residents who enroll at Washington State University - Pullman full-time during the 2016-2017 academic year. The program requires that the recipients live on campus in a specified residence hall for the 2016-2017 academic year, and outside of the family home the following three academic years in order to renew the scholarship.

First-generation students represent a cross-section of America and college campus demographics. First Scholars come from diverse cultural, socioeconomic, geographic and family backgrounds and experiences. First-gen students are found in all departments and colleges of virtually every major public university across the country. Our affiliate universities have an average 30-50% first-gen enrollment and the number keeps rising. However, the average national graduation rate for first-generation students is only 34%, compared with 55% for the general student population.

WEBSITE: <http://firstscholars.wsu.edu/>

Education Award Applications –The American College of Psychiatrists

DEADLINE: June 30

AMOUNT: (SEE WEBSITE)

DESCRIPTION: The Award for Creativity in Psychiatric Education is open to any creative/innovative program for psychiatric education that has been in operation for at least two years, and has been a part of a U.S. or Canadian approved psychiatric residency training program. Trainees may include: medical students, residents, other physicians, allied mental health professionals, or members of the community. The Committee selects an awardee in the fall; all applicants are notified of the Committee's decision by November 15.

DIRECTORS OF HEALTH PROMOTION AND EDUCATION (DHPE)-2017 SPRING HEALTH EQUITY INTERNSHIP

DEADLINE: & AMOUNT: For more information, contact Karen Probert at internship@asphn.org.

DESCRIPTION: DHPE has received supplemental funding to support the Health Equity Internship for an additional year. The funding is from the Centers of Disease Control and Prevention (CDC) Division for Heart Disease and Stroke Prevention (DHDSPP). The mission of the CDC DHDSPP is to provide public health leadership to improve cardiovascular health for all, reduce the burden, and eliminate disparities associated with heart disease and stroke. DHPE is working with the Association of State Public Health Nutritionists (ASPHN) to administer the Internship Program for the 2017 Spring cohort.

College students selected for these cohorts should be interested in an internship project and placement site that focuses on the following:

Cardiovascular Disease Risks Reduction;

Heart Disease Prevention and Education, including Hypertension and Stroke;

Nutrition and Healthy Eating;

Physical Activity and/or Obesity. Interested students should mention their proposed internship site within their application.

Preference will be given to undergraduate and graduate students who attend Minority-Serving Institutions (HBCUs, HSIs and Tribal Colleges), are from racial and ethnic populations, and/or have demonstrated interest in working to achieve health equity in minority and underserved communities.

WEBSITE/LINK: For more information, contact Karen Probert at internship@asphn.org.

Native Student Travel Scholarships: Connecting STEM and Justice

DEADLINE: Apply now for sponsorship to visit Philadelphia and attend the International Association of Chiefs of Police Conference (IACP) on October 21-24, 2017.

AMOUNT: Funding includes registration, airfare, lodging, ground transportation, baggage, meals, and incidental expenses. You would fly from your home airport to Philadelphia on October 20, 2017, and return on October 25, 2017. Decision notices will be sent to all applicants by August 30, 2017.

DESCRIPTION: Are you an American Indian or Alaska Native student in science, tech, engineering, or math (STEM)?

The National Institute of Justice is looking for five qualified undergrad or grad students to attend this conference, which brings together thousands of professionals from federal, state, local, and tribal organizations.

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

Attendance will aid you in exploring applications of your STEM training to issues of criminal justice and public safety. You will have the opportunity to interact with scientists and attend panel discussions on the most urgent issues facing communities and innovative, evidence-based solutions.

VETERANS

VFW Accepting Applications From Veterans for Emergency Financial Assistance

DEADLINE: Open

AMOUNT: Grants of up to \$5,000 will be awarded to active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity or natural disaster....

DESCRIPTION: As the nation's largest organization of combat veterans, we understand the challenges veterans, service members and military families can face and believe that experiencing financial difficulties should not be one of them. That's the premise behind the VFW's Unmet Needs program.

Unmet Needs is there to help America's service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. The program provides financial aid of up to \$5,000 to assist with basic life needs in the form of a grant -not a loan- so no repayment is required. To further ease the burden, we pay the creditor directly.

Since the program's inception, Unmet Needs has distributed over \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The needs of our veterans, service members and their families should never go unmet. Let us offer you a hand up when you need it!

Please review the Unmet Needs eligibility criteria to see if you or someone you know qualifies for a grant through the Unmet Needs program.

WEBSITE:

<http://www.vfw.org/UnmetNeeds/?gclid=CjwKEAiAhPCyBRctwMDS5tzT03gSJADZ8VjRw5RxJw1br5NTowrY1NFzylowGtdvOagXa3LHyYK PRoCB4Hw wcB>

RWJF: Submit a Pioneering Idea Brief Proposal - Throughout the year, we welcome Pioneering Ideas Brief Proposals that can help us anticipate the future and consider new and unconventional perspectives and approaches to building a Culture of Health.

DEADLINE: Open

AMOUNT: See site

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

DESCRIPTION: The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory in order to better understand what new trends, opportunities and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

What is a Pioneering Idea?

Good question! We don't want to provide a checklist that limits your thinking—or ours. We do want to give you as clear a picture as we can about the kinds of proposals we hope to see, so you can best assess whether submitting an idea through our Pioneering Ideas Brief Proposal process is the right next step for you. Our application form allows you to introduce your idea; if it seems to be a fit for our portfolio we will reach out for more information.

We share some examples below of Pioneering Ideas we have funded in the past to give you a sense of where we've been. Keep in mind that ultimately, we need you to challenge us, and to tell us where we should be going and what ideas have the most potential to transform the way we think about health. As you review the examples below, you may notice some shared themes or characteristics which:

Challenge assumptions or long-held cultural practices.

Take an existing idea and give it a new spin—or a novel application.

Offer a new take or perspective on a long-running, perplexing problem.

Apply cutting-edge ideas from other fields to health.

Explore the potential for emerging trends to impact our ability to build a Culture of Health.

WEBSITE/LINK: http://www.rwjf.org/en/how-we-work/submit-a-proposal.html?rid=CR0RfoW1kVrIxFKudcSYjL9Zh7yWU63VdhdaVE2UAc&et_cid=639126

IDAHO & WASHINGTON - ONLY

ASPCA Northern Tier Shelter Initiative Coalition Grants

DEADLINE: No Deadline

AMOUNT: Grant amounts will vary depending on project. A site visit may be required as part of the review process or as a condition of receiving the grant funds. Consultation services may be offered as part of a grant package.

DESCRIPTION: Priority will be given to coalitions working toward long-term, systemic, and sustainable community/regional improvements in animal welfare services. This may include (but not limited to) programs that:

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD
Funding Opportunities
APRIL 2018

Increase capacity to provide quality animal care and services by:

Improving protocols around vaccination on intake, disease spread prevention, decreased length of stay, physical and behavioral care of sheltered pets

Improving capacity to provide basic health services including spay/neuter and vaccines for animals at risk in the community.

Increase coalition live release rate via:

Fee-waived adoption programs and policies

High-volume adoption events

Foster programs

Relocation initiatives within the seven Northern Tier target states

Decrease shelter intake via:

Lost and found programs

Return to owner in the field

Pet retention assistance, such as safety net programs

Re-homing assistance

Healthy Native Babies Outreach Stipend Application

DEADLINE: Applications will be accepted on a rolling basis as funds are available.

AMOUNT: \$1500

DESCRIPTION: The Healthy Native Babies Project, a project of the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), has created culturally appropriate materials with safe infant sleep messages for American Indian and Alaska Native communities. These materials can be tailored for local communities by selecting various photos, graphic designs, and phrases in Native languages from the Healthy Native Babies Project Toolkit Disk. Outreach stipends are available for printing customized outreach materials to disseminate in your community. Recipients must be from one of the following Indian Health Service (IHS) Areas: Alaska, Bemidji, Billings, Great Plains, and Portland. Information on IHS Areas can be found at: <https://www.ihs.gov/locations/>.

Good Sports Accepting Applications for Sports Equipment Program

DEADLINE: *ROLLING FUNDING*

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

Funding Opportunities

APRIL 2018

AMOUNT: While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

DESCRIPTION: Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization is able to focus on the respective needs of each individual program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for a two-year period. During that time, organizations can make up to six separate donation requests — as long as need is well documented, donations will be granted. There is no need to resubmit a full application again during the two-year period.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks prior to the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

WEBSITE/LINK: <https://www.goodsports.org/apply/>

Good Sports Accepting Applications for **Athletic Equipment Grants**

DEADLINE: *ROLLING FUNDING*

AMOUNT: You will be required to sign a release form and pay a shipping and handling fee with each donation. This will always equal 10% of the total retail value of the items; for example, if the total value of your items equals \$2,000, you will be asked to provide \$200, etc.

DESCRIPTION: Good Sports in Quincy, Massachusetts, is a nonprofit whose mission is to increase youth participation in sports, recreation, and fitness activities.

To that end, the organization provides sports equipment, apparel, and footwear to youth organizations offering sports, fitness, and recreational programs to youth in need.

To be eligible, organizations must directly serve youth between the ages of 3 and 18 in an economically disadvantaged area; be located in North America (U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers consistent and structured opportunity for play to large groups of children. Winning organizations may make up to six equipment requests within a two-year period. Winners will be responsible for operational costs, including equipment shipping, up to \$1,500.

Funding Opportunities
APRIL 2018

Voya Foundation Grants

DEADLINE: Grant requests are reviewed throughout the year. Grant applicants should check the online system for quarterly deadlines, which are subject to change.

AMOUNT: Value of grant requests must be a minimum of \$2,500.

DESCRIPTION: The Voya Foundation, the philanthropic arm of Voya Financial, works to ensure that youth are equipped with science, technology, engineering, and math (STEM) expertise and financial knowledge necessary to compete in the twenty-first century workforce and make smart financial decisions that lead to a secure retirement.

To that end, Voya is accepting applications from organizations that provide innovative and experiential K-8 STEM learning opportunities that promote an early interest in STEM career fields and improve teachers' capabilities in STEM; or that provide financial education curriculum to grade 9-12 students focused on navigating major financial milestones such as student debt, credit, home ownership, financial products and services/financial capability, and family needs.

1) STEM Education: The foundation supports organizations that fund high-quality experiential STEM learning opportunities for children in grades K-8. Programs are evaluated based on improvements in covered STEM concepts and increased interest in STEM careers generated over the course of the program.

2) Financial Literacy: Voya's financial literacy grants support organizations that provide financial literacy curriculum to students in high school (grades 9-12). Programs must cover student debt, credit, home ownership, investing, and understanding of financial products and services (financial capability), and family financial planning.

To be eligible, applicants must be considered tax exempt under Section 501(c)(3) of the Internal Revenue Code.

COMMUNITY

FY 2017 Economic Development Assistance Programs - Application submission and program requirements for EDA's Public Works and Economic Adjustment Assistance programs. Department of Commerce

DEADLINE: There are no submission deadlines under this opportunity. Proposals and applications will be accepted on an ongoing basis until the publication of a new EDAP NOFA.

AMOUNT: \$3,000,000

DESCRIPTION: Under this NOFA, EDA solicits applications from applicants in rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects under EDA's Public Works and EAA programs. Grants and cooperative agreements made under these programs are designed to leverage existing regional assets and support the implementation of economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities, including communities and regions that have been impacted, or can reasonably demonstrate that they will be impacted, by coal mining or coal power plant

**PHS COMMISSIONED OFFICERS
FOUNDATION** *for the*
Advancement Of Public Health

Seed Grant Application 2018

Contact Information

Name	
Name of Organization	
Street Address	
City/State/ Zip Code	
Work Phone	
E-Mail Address	
HHS Region	

Category

Applicants should fall into one of the following categories:

- Non-profit organization
- Affiliation with the Commissioned Corps (e.g. local COA branch)
- COA member to benefit members of the Commissioned Corps (e.g., leadership training) or helps to advance public health

Public Health Focus

Tell us which public health focus your project will address (choose as many that apply):

- Vaccines/Immunizations
- Adolescent health
- Other _____
- Women's health
- Obesity
- Minority health
- Opioids
- HIV/AIDS, Hepatitis, STIs
- Mental health
- Family planning
- Tobacco

Description of Project

Provide an overview statement about the organization and its mission to advance public health, a statement outlining the project and how the funds will make a difference. Summarize the problem the project will address, a set of goals for the project, the overall objectives for the project, as well as a project plan that describes the activities. Include date and location of event(s). (800 word limit)

*Amount requested: \$ _____

*Unless there are extenuating circumstances as voted by the COF Board of trustees, no single grant/donation should exceed \$5000 in a given fiscal year. Grants/donations of \$5000 or less may be authorized by vote of the COF Executive Committee. Grant/donation recipients may apply for funds in successive fiscal years.

Proposed Outcomes and Metrics of Project

Describe how you plan to track the project and how you will measure its success. (500 word limit)

How to Apply

All requests for funding must be submitted no later than three months before an event is scheduled to occur. Events should plan to start after July 1, 2018. Requests for funding will be accepted during the period March-May for the next fiscal year.

Due, May 31, 2018, electronically or mailed to the address below.

COF will budget funds provisionally to be used for grants/donations to non-profit groups, Corps-affiliated groups, or Commissioned Corps officers for specific projects as laid out above.

Submit applications to:

Name	Michael R. Milner, DHSc, PA-C
Title	Rear Admiral, Assistant U.S. Surgeon General (retired)
Address	Commissioned Officers Foundation for the Advancement of Public Health 8201 Corporate Drive, Suite 1170 Landover, Maryland 20785
Work Phone	301-731-9080
E-Mail Address	michael.milner1@verizon.net

Agreement and Signature

By submitting this application, I affirm that the facts set forth in it are true and complete. I understand that if the proposed project is selected, I as the applicant of the organization am required to report to the Foundation how the granted funds were expended (e.g. helped the organization) no later than three months after the event.

SAVE-THE-DATE

8th Annual THRIVE Conference

June 25-29, 2018

WHO: For American Indian and Alaska Native Youth 13-19 years old

- 1 Chaperone for every 4 youth attending. **Background checks are required for all adults facilitating or attending who did not attend in 2017.
- Activities, materials, lunch and snacks Mon-Thurs. will be provided.
- Travel, parking, lodging, breakfast and dinners are not included.

WHERE: To be determined in Portland, Oregon

LODGING: Once a location is set we will circulate group rates for a local hotel.

WHY: Build protective factors and increase your skills and self-esteem, connect with other young Natives, learn about healthy behaviors (suicide prevention, healthy relationships, etc.) and how to strengthen your nation through culture, prevention, connections, and empowerment!

WHAT: This conference will be made up of FIVE (or six) workshop tracks and at registration each youth will need to rank their preference for which workshop they want to be in. Tracks may include: digital storytelling, movement, nutrition, art creation, physical activity, beats lyrics leaders (song writing and production), We Are Native youth ambassador leadership (additional application required), or a science and medical track sponsored by the Oregon Health and Science University.

NEW WORKSHOPS IN 2018!!
Registration (free) will open
the first week in April!!

Tribal Youth Delegate Program

- ✓ Interested in representing your tribe?
- ✓ Interested in creating policy that affects you?

Text "delegate" to 97779 to get started!

**"Let us put our minds together and see what life we can make for our children."
~Tatanka-lyotanka (Sitting Bull)**

The NPAIHB, in conjunction with We R Native, is seeking Young Adults ages 14-24 to join the 1st cohort of the [Tribal Youth Delegate program](#).

Youth Delegates will:

- Learn about health careers, governance structures, and policy
- Explore Indigenous Leadership styles by strengthening networking skills and sharing their personal story
- Enhance their relationship-building and team-work skills
- Advocate for positive changes in healthcare and public health systems important to their Tribal communities

Apply by June 1st, 2018

Questions: Contact [Tana Atchley](#)

Apply Here

Social Marketing Bootcamp for AI/AN Youth

Topic: Domestic and Sexual violence prevention (including teen dating)

In 2018, the NPAIHB would like to train Native youth in leadership skills, social marketing, and health activism. To do that, we are hosting 1-3 day workshops to create a youth-driven social marketing campaign designed to promote resilience and healthy decision-making. The Bootcamp would need to be implemented by the end of September 2018.

We are calling the trainings “**Social Marketing Bootcamps**” and hope that 12-15 of your youth (high school/young adult) would be interested in attending a bootcamp at your location! The training will involve a professional Native filmmaker or artist, who will help generate a youth-driven campaign addressing: concerning social media posts; domestic & sexual violence prevention; drug and alcohol prevention; suicide prevention; or cultural identity and resilience. For this recruitment, we are looking to fill a bootcamp that addresses the domestic and sexual violence prevention topic, this can include teen dating violence.

If you are interested in having this Bootcamp take place at your Tribe, please let us know and send a couple of options for 3 day periods that you feel you could get 12-15 youth to commit to for developing a social marketing campaign! These Bootcamps are filled on a first come first serve basis so please send us your interest as soon as possible!

Please contact Colbie Caughlan, ccaughlan@npaihb.org, and Ethan Newcomb, enewcomb@npaihb.org, if you are interested in this opportunity or if you have more questions about the Bootcamps!

HRSA Grants Education and Technical Assistance Webinar Series

The Health Resources and Services Administration (HRSA) invites you to a *FREE* Grants Education and Technical Assistance Webinar Series for Tribes, Tribal Organizations, Indian Health, Tribal and Urban Indian Health Programs.

Don't miss this opportunity to learn about the federal grant application process, how to write better grant proposals and evaluation plans for your projects, strategies for successful grant management, and more. Participants will also have the opportunity to connect with HRSA subject matter experts, grant reviewers, as well as peers to discuss best practices to successfully apply for and manage HRSA grants.

The webinars will be held the **second Wednesday of every month** from 1:00pm to 2:30pm ET (10am PT, 11am MT, 12pm CT).

LEARNING SESSIONS	
April 11, 2018	Federal Grants Application Process: The Basics Where to Find Funding Opportunities, Grants Resources & Technical Assistance <i>Link to the recording available at https://www.hrsa.gov/about/organization/bureaus/ohe/populations/aian.html.</i>
May 9, 2018	Writing a Competitive Grant Application / HRSA Review Criteria
June 13, 2018	Applying for a HRSA Grant: A Grantee and a Reviewer's Perspectives / The Benefits of Becoming a Reviewer
July 11, 2018	Writing a Successful Evaluation Plan for Your Grant Application
August 8, 2018	Preparing a Budget for your Grant Proposal
September 12, 2018	Effective Grants Management/Administration & Reporting
October 10, 2018	Successful HRSA Tribal Grantees: A Discussion on Best Practices, Lesson Learned in Managing HRSA Grants

Join us and receive up-to-date grant resources and information on open and upcoming funding opportunities.

To register go to <https://hrsa-grants-webinar-series-for-tribes.eventbrite.com>.

SAVE THE DATE!

WEBINAR: Telemedicine 101 for Tribal Organizations

Tuesday, May 22, 2018

11:00 am PDT, 12 pm MDT, 1 pm CDT, 2 pm EDT

(please note the time for your location)

The practice and delivery of healthcare is changing, with an emphasis on improving quality, safety, efficiency, and access to care. Telemedicine can help you achieve these goals!

The Health Resources & Services Administration and the Southwest Telehealth Resource Center invite you to a **free**, 60-minute webinar on the implementation and practice of telemedicine.

This is an opportunity for tribal organizations to learn:

- What is telemedicine?
- What are the benefits to tribal healthcare practitioners & patients?
- What resources are available to those who want to get involved?

Indian Leadership for Indian Health

Health Data Literacy & Applications for Tribal Health Workshop

May 2nd & 3rd 2018

Purpose:

The Northwest Portland Area Indian Health Board (NPAIHB) is excited to present the Health Data Literacy & Applications for Tribal Health Workshop! This training provides an excellent opportunity to gain (or refresh) skills in finding, understanding, presenting and applying health data.

Audience:

This will be a very practical skill building session for grant writers, data analysts, health professionals, tribal leaders, policy makers, community planners and students.

Topics:

- Health statistics 101
- Where to find public health data for AI/AN communities
- Best practices for presenting data effectively
- How to get started with collecting and mapping data using Open Source Geographic Information System (GIS) software.
- Putting data to use for community development and health programs

Registration:

Register online at <https://www.surveymonkey.com/r/HDLMay2018> by **April 20th**.

Location:

Swinomish Casino & Lodge
12885 Casino Dr
Anacortes, WA 98271

Questions?
